Entrance-NW

Backing SVG: 8.400 x 12.583 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 6.291 x 8.400 in

R1C2: 6.291 x 8.400 in

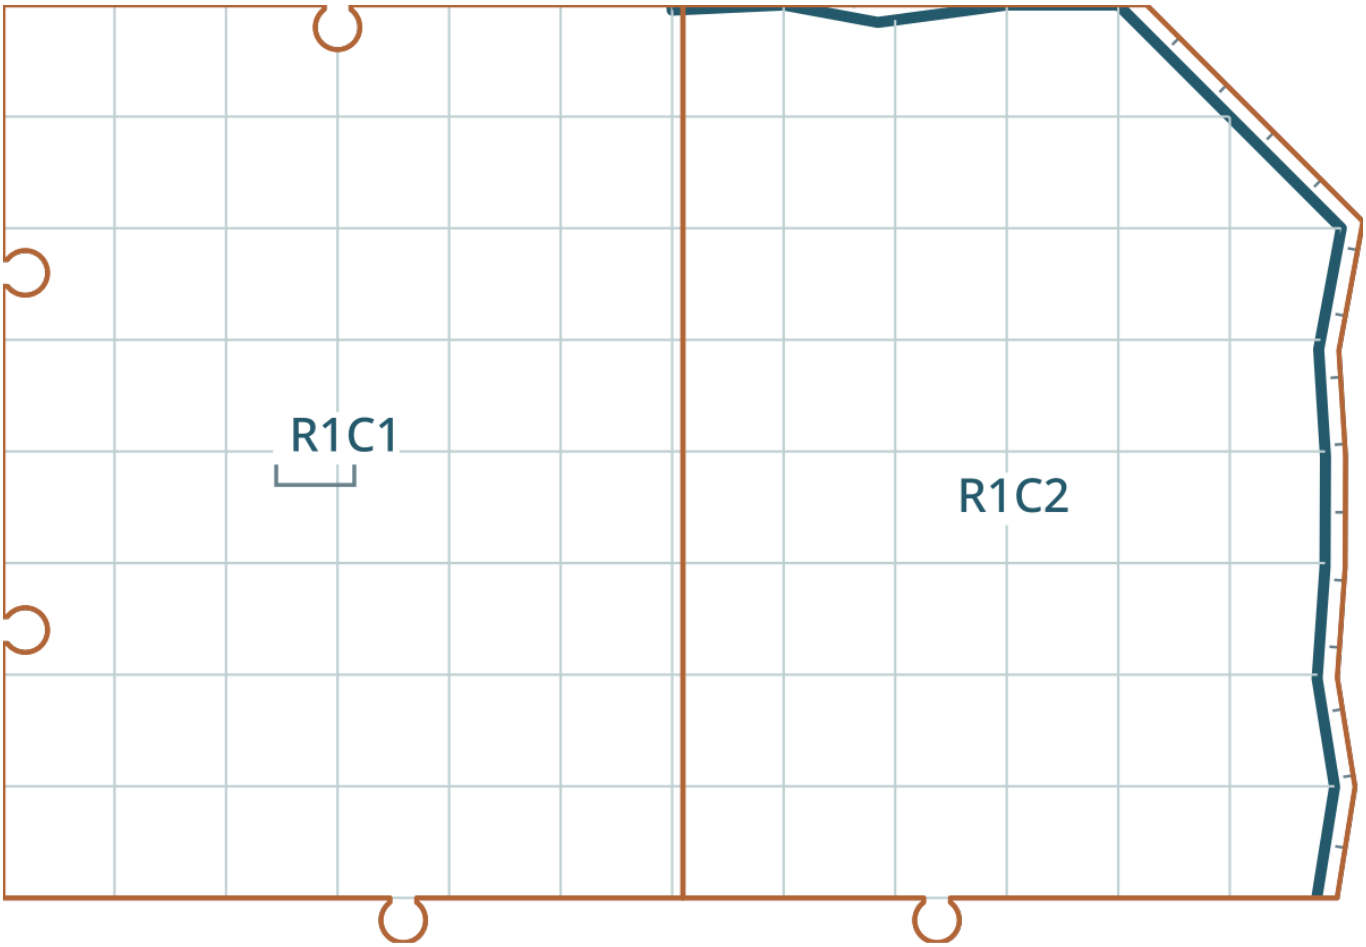

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Entrance-NE

Backing SVG: 8.400 x 12.194 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 6.097 x 8.400 in

R1C2: 6.097 x 8.400 in

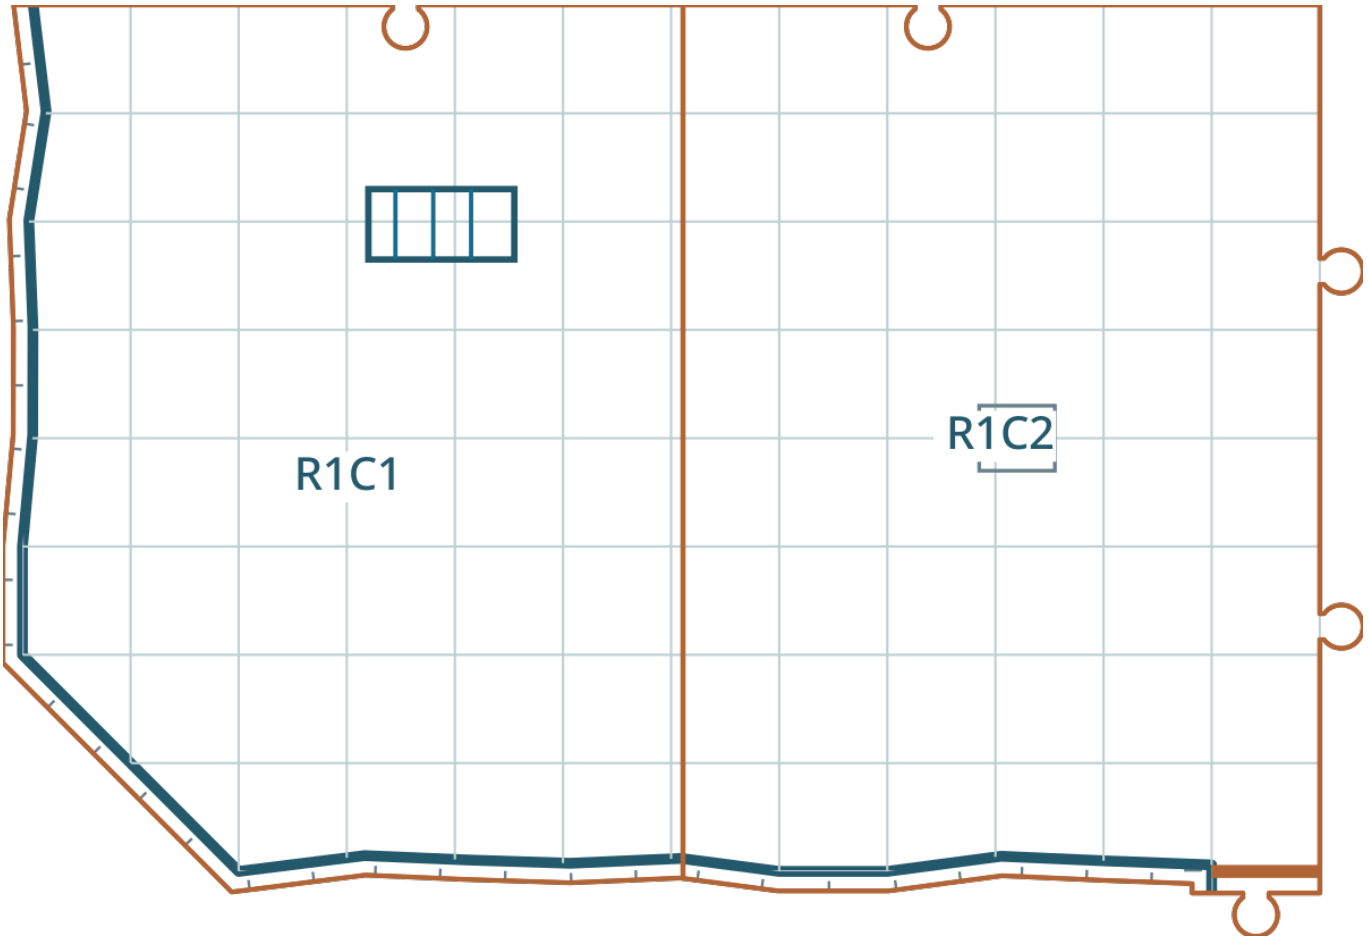

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Entrance-SW

Backing SVG: 8.600 x 12.580 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 6.290 x 8.190 in

R1C2: 6.290 x 8.600 in

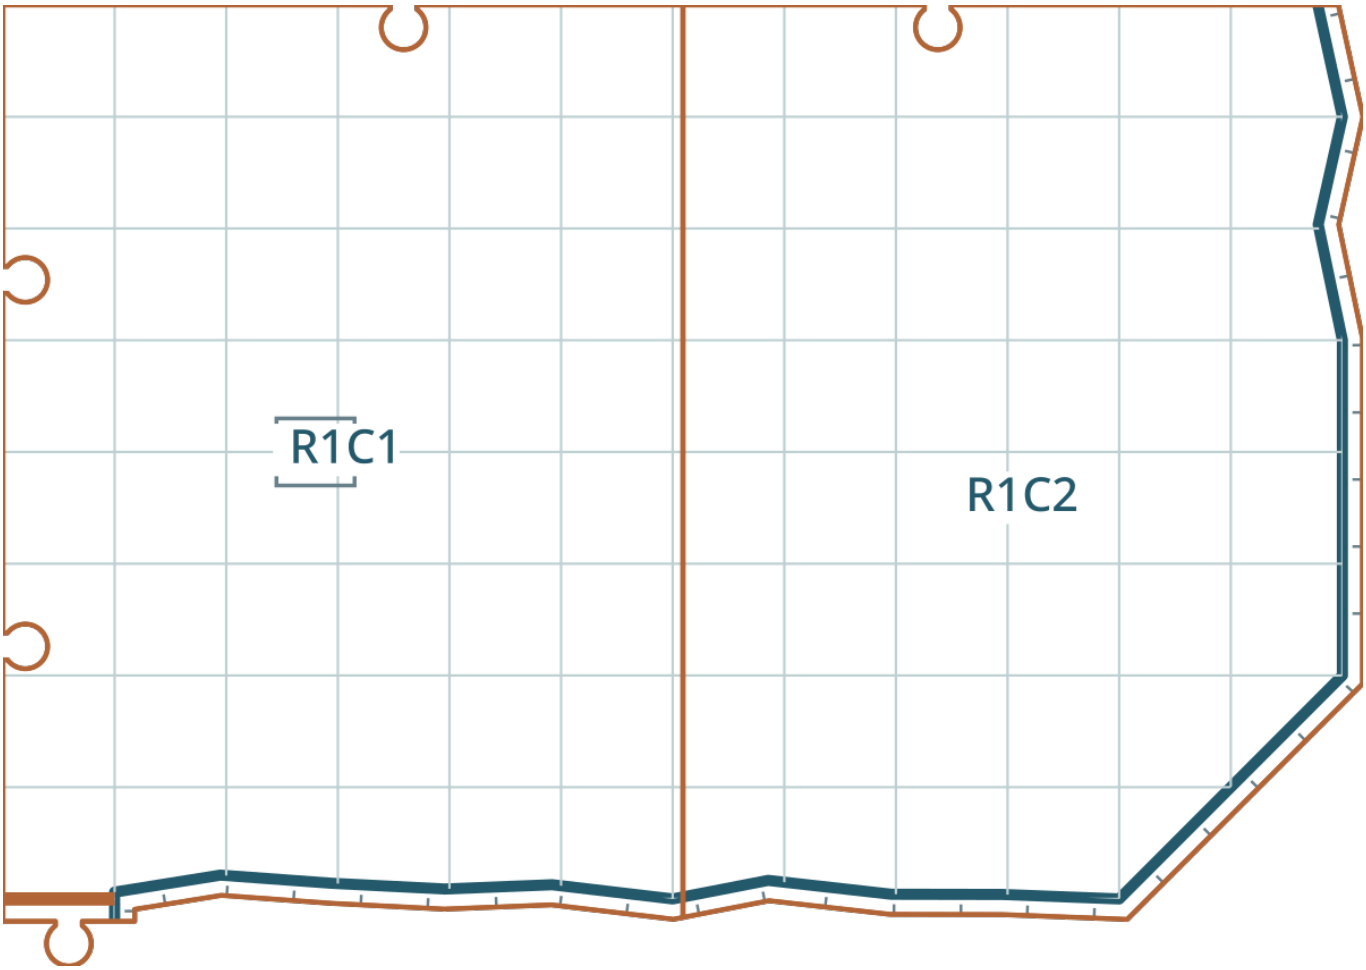

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Entrance-SE

Backing SVG: 8.600 x 12.184 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 6.092 x 8.600 in

R1C2: 6.092 x 8.183 in

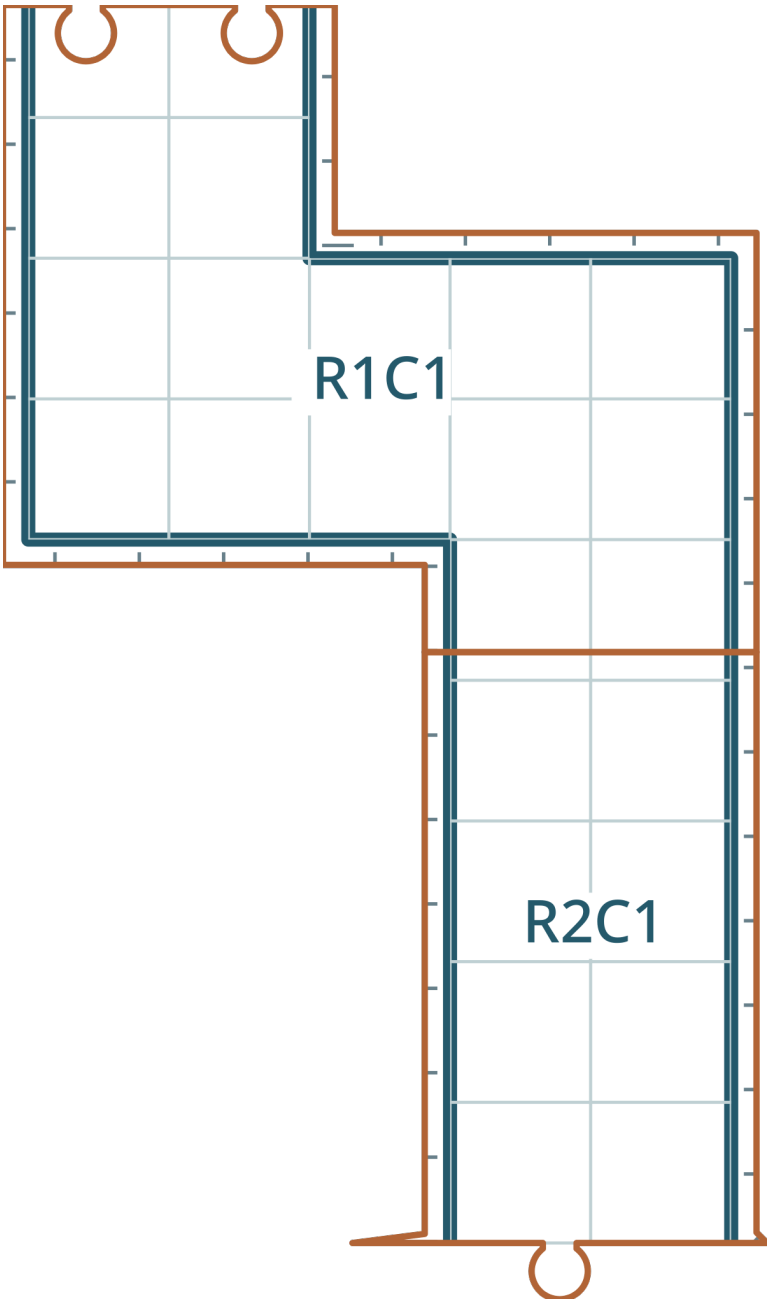

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Entrance-Passage

Backing SVG: 5.435 x 9.200 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.360 x 4.600 in

R2C1: 2.949 x 4.600 in

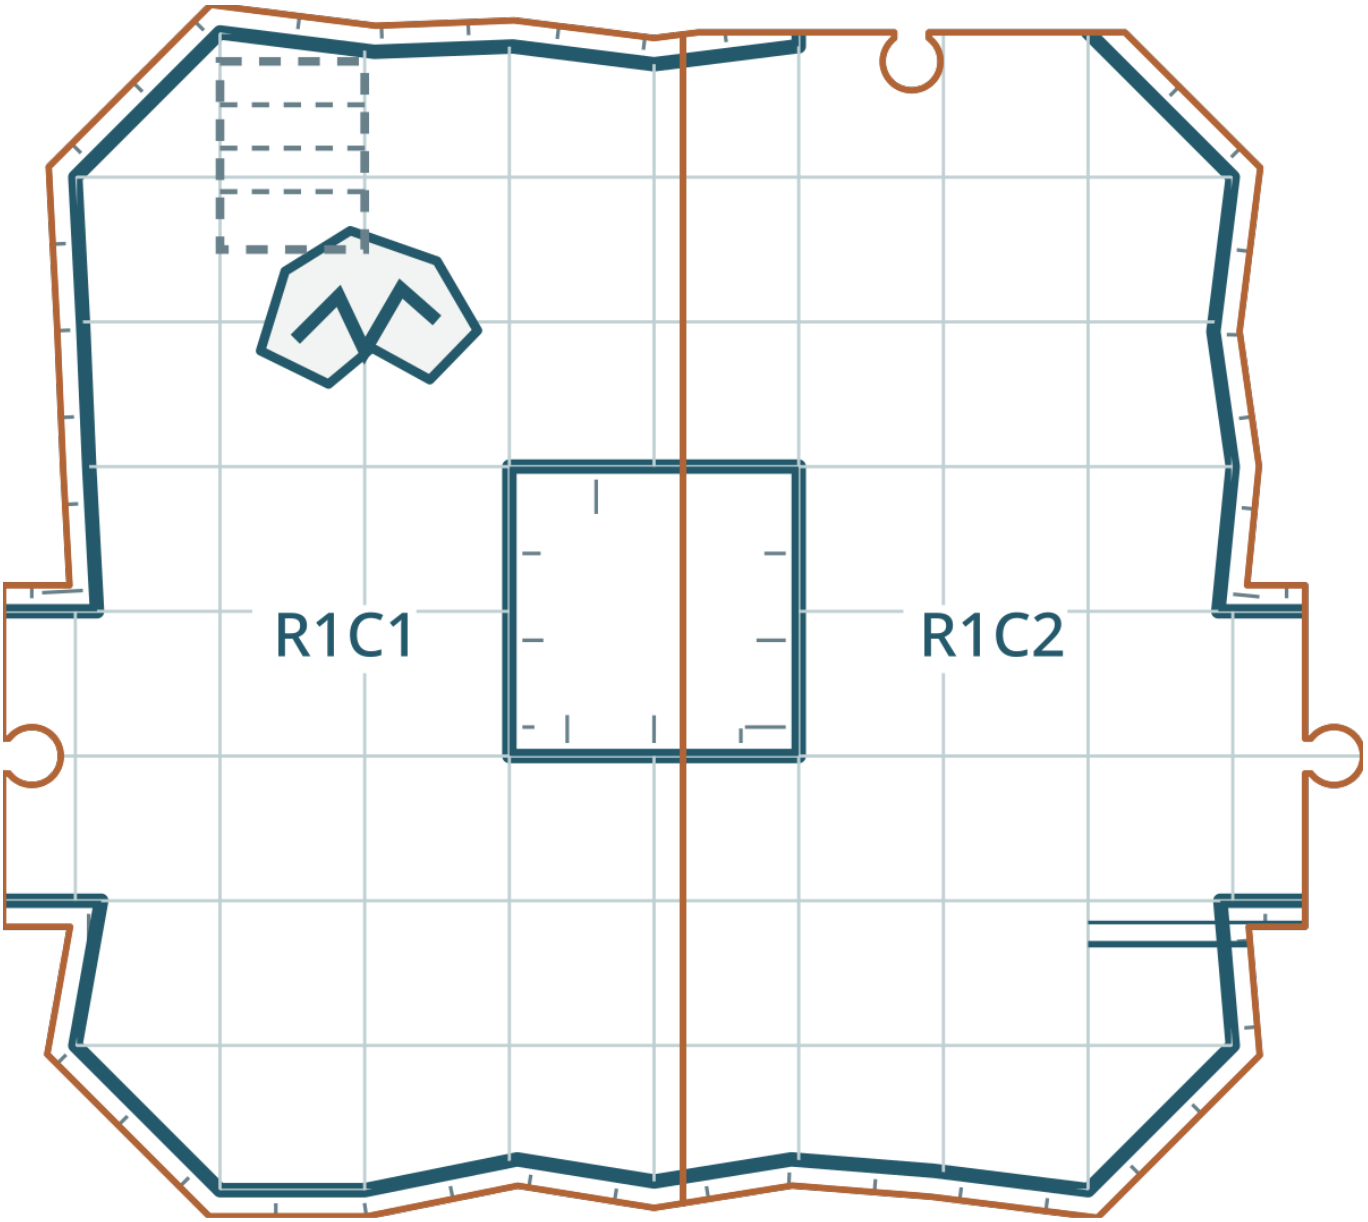

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Nest-Junction

Backing SVG: 9.400 x 8.379 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 4.700 x 8.370 in

R1C2: 4.700 x 8.190 in

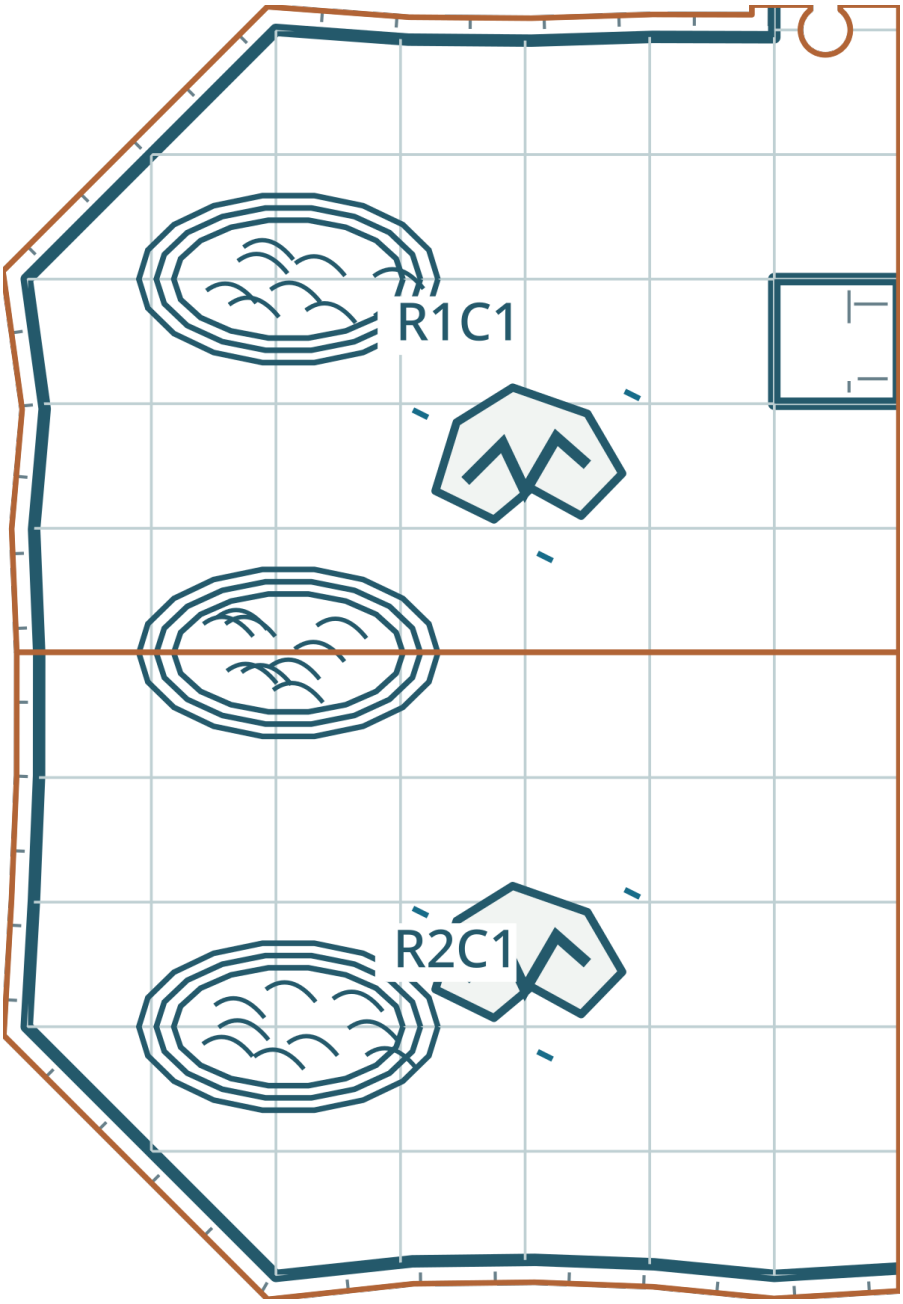

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Feeding-West

Backing SVG: 7.199 x 10.388 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.194 x 7.191 in; turn clockwise after cutting

R2C1: 5.194 x 7.193 in; turn clockwise after cutting

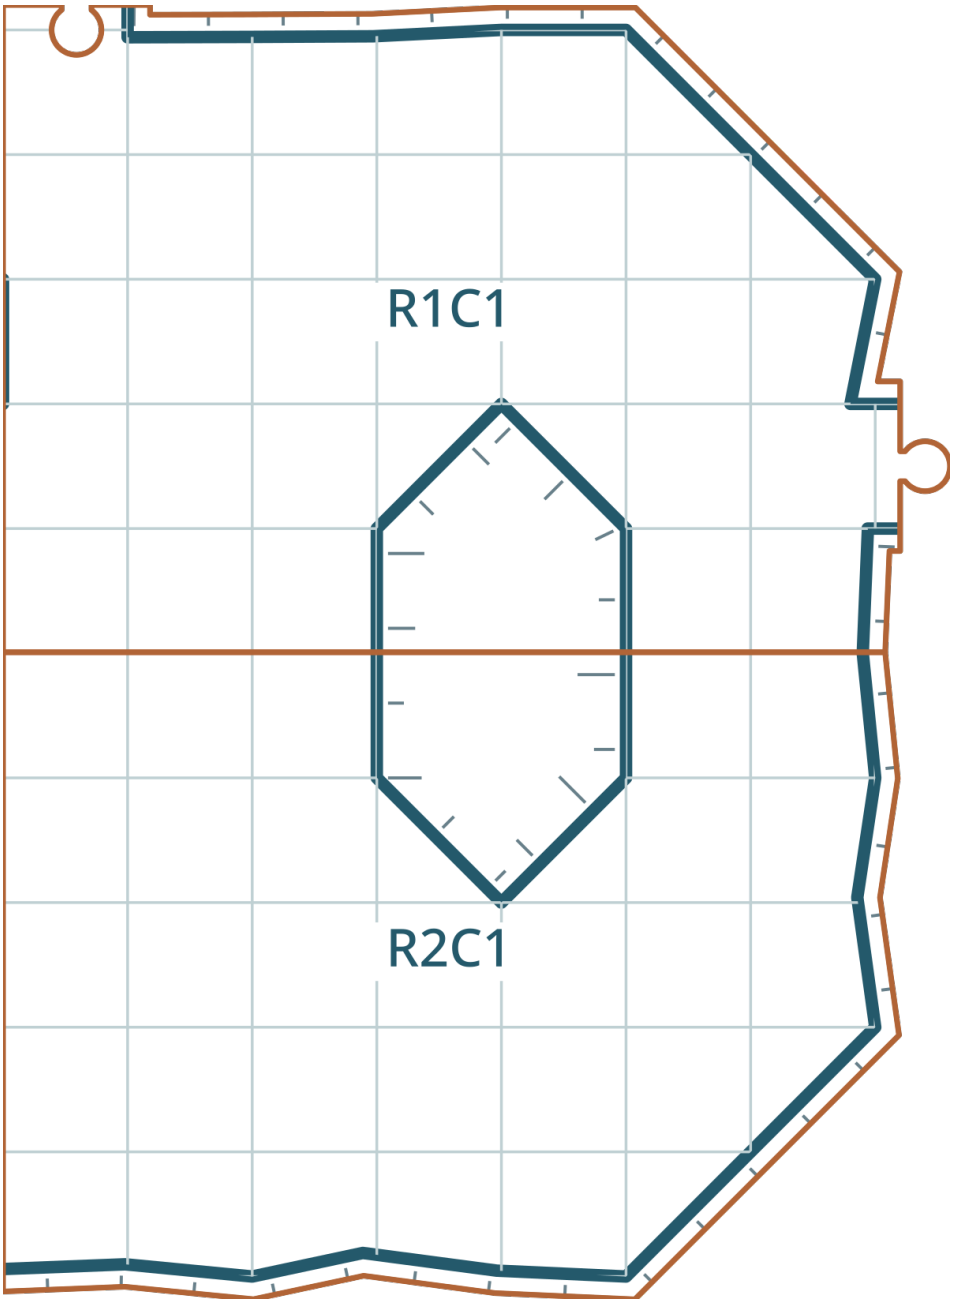

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Feeding-East

Backing SVG: 7.600 x 10.383 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.192 x 7.600 in; turn clockwise after cutting

R2C1: 5.192 x 7.191 in; turn clockwise after cutting

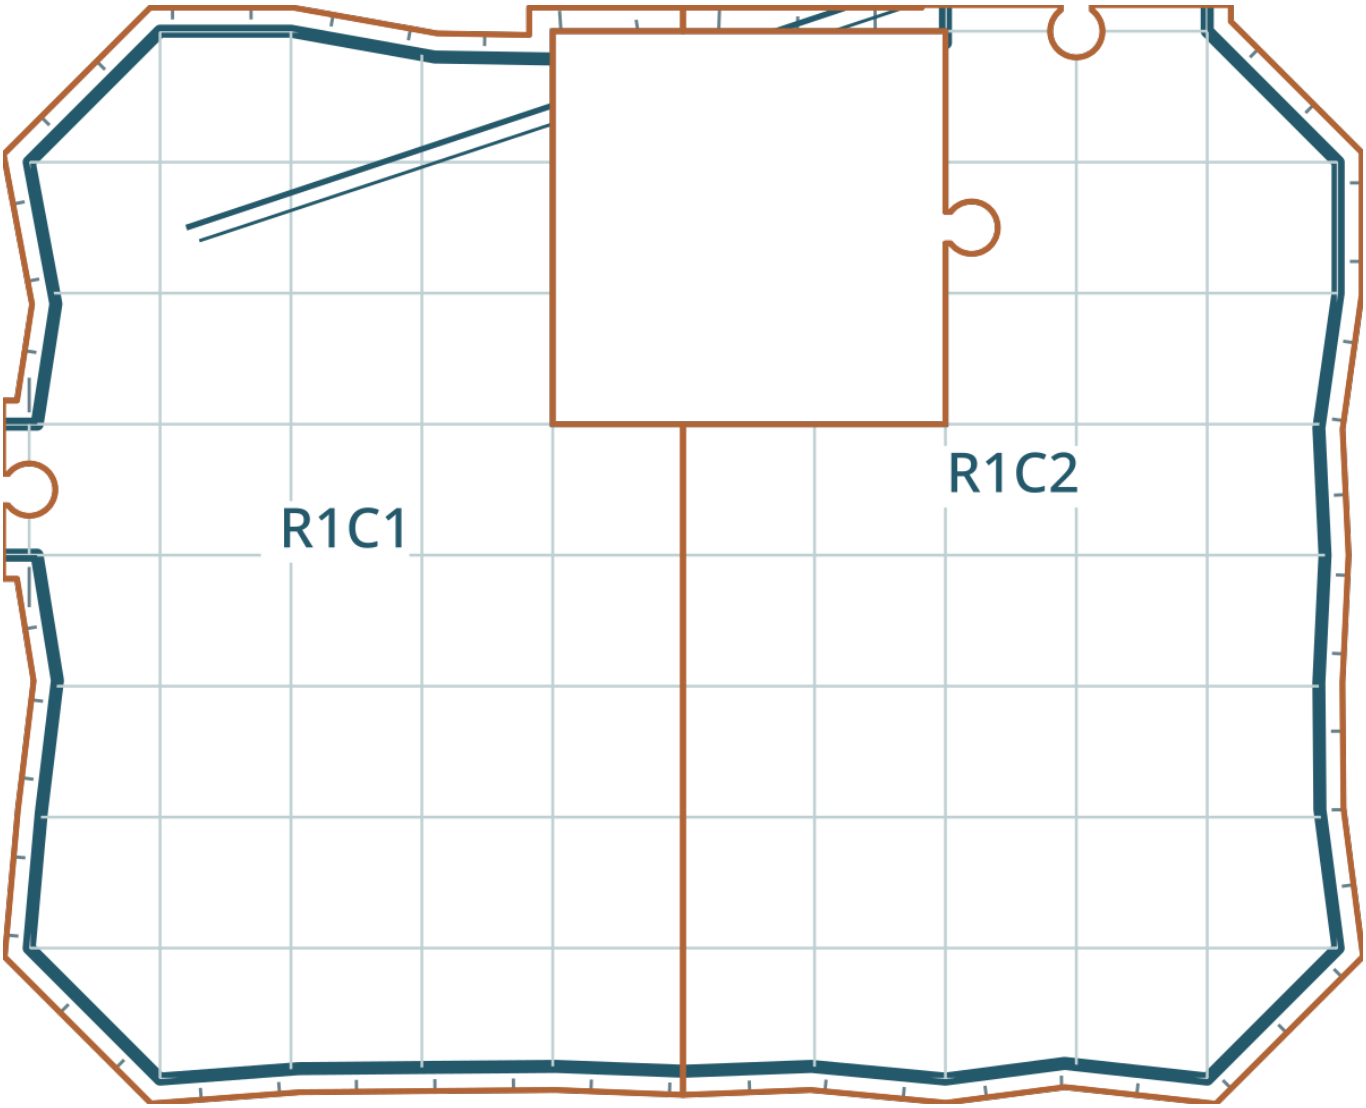

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Lift-Cavern

Backing SVG: 10.390 x 8.388 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.195 x 8.366 in

R1C2: 5.195 x 8.388 in

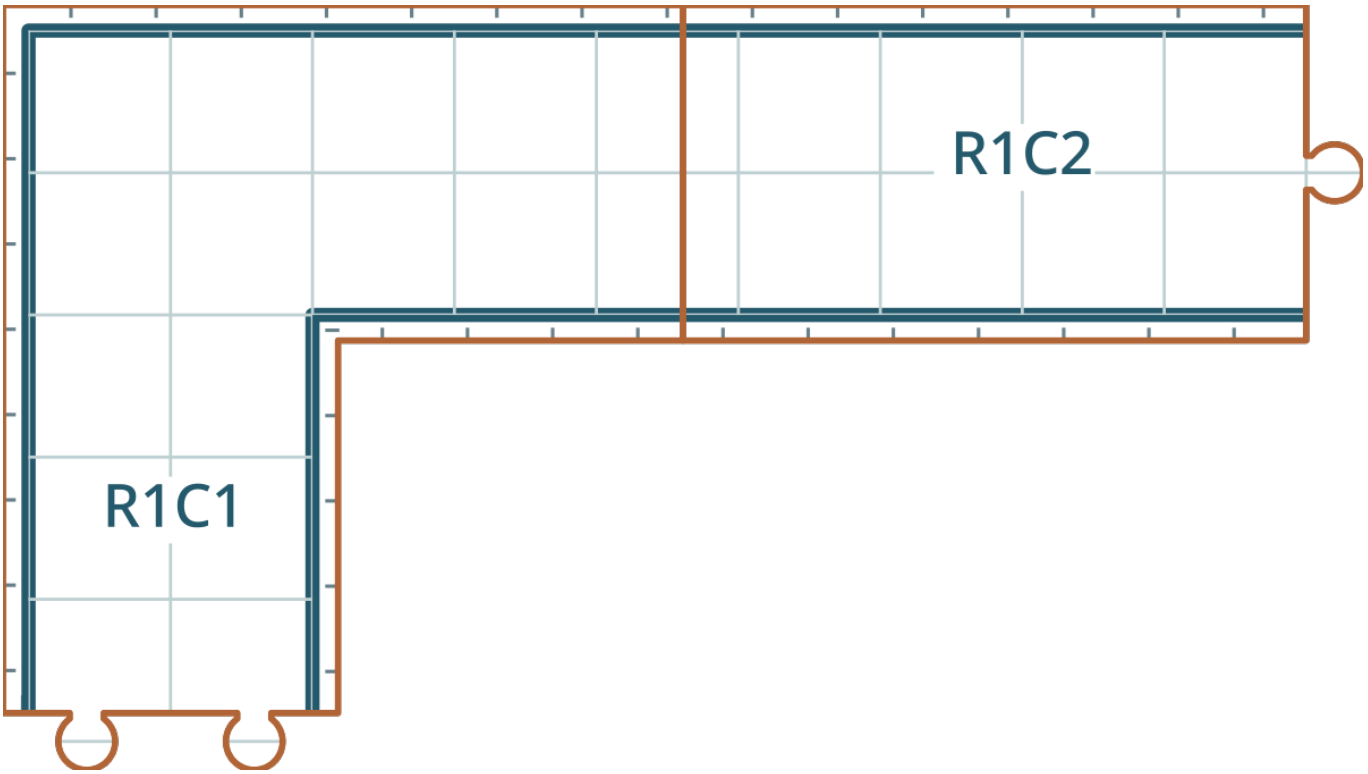

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

West-Passage-A

Backing SVG: 9.580 x 5.380 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 4.790 x 5.380 in

R1C2: 4.790 x 2.360 in

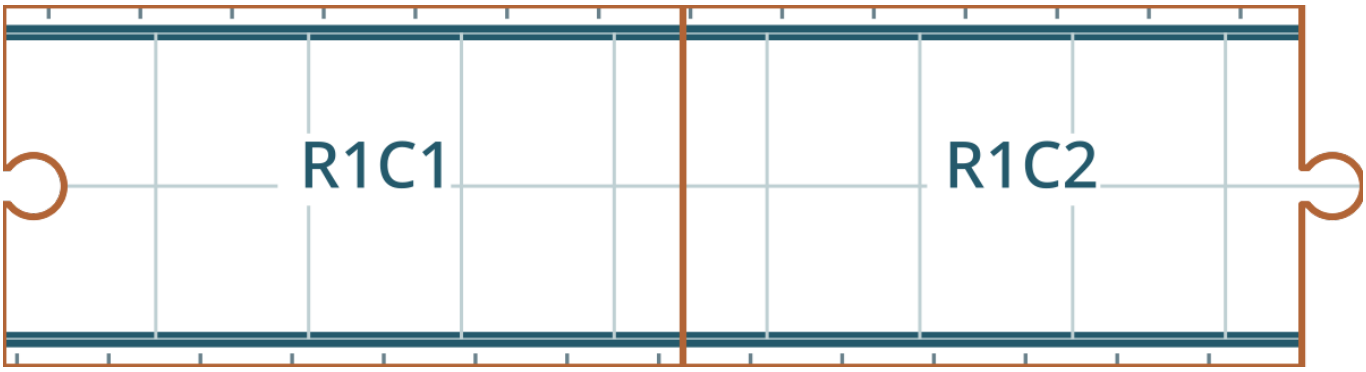

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

West-Passage-B

Backing SVG: 8.900 x 2.360 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 4.450 x 2.360 in

R1C2: 4.450 x 2.360 in

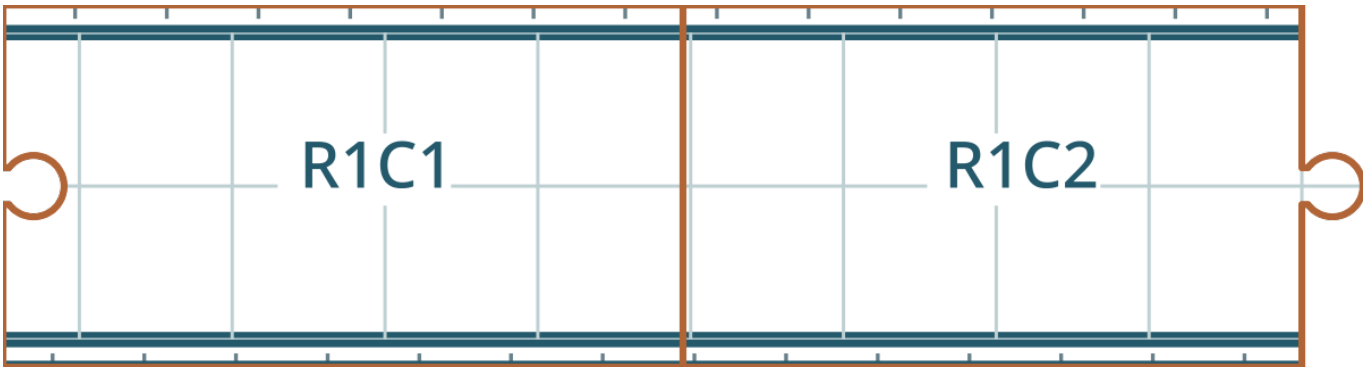

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

East-Passage-A

Backing SVG: 8.900 x 2.360 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 4.450 x 2.360 in

R1C2: 4.450 x 2.360 in

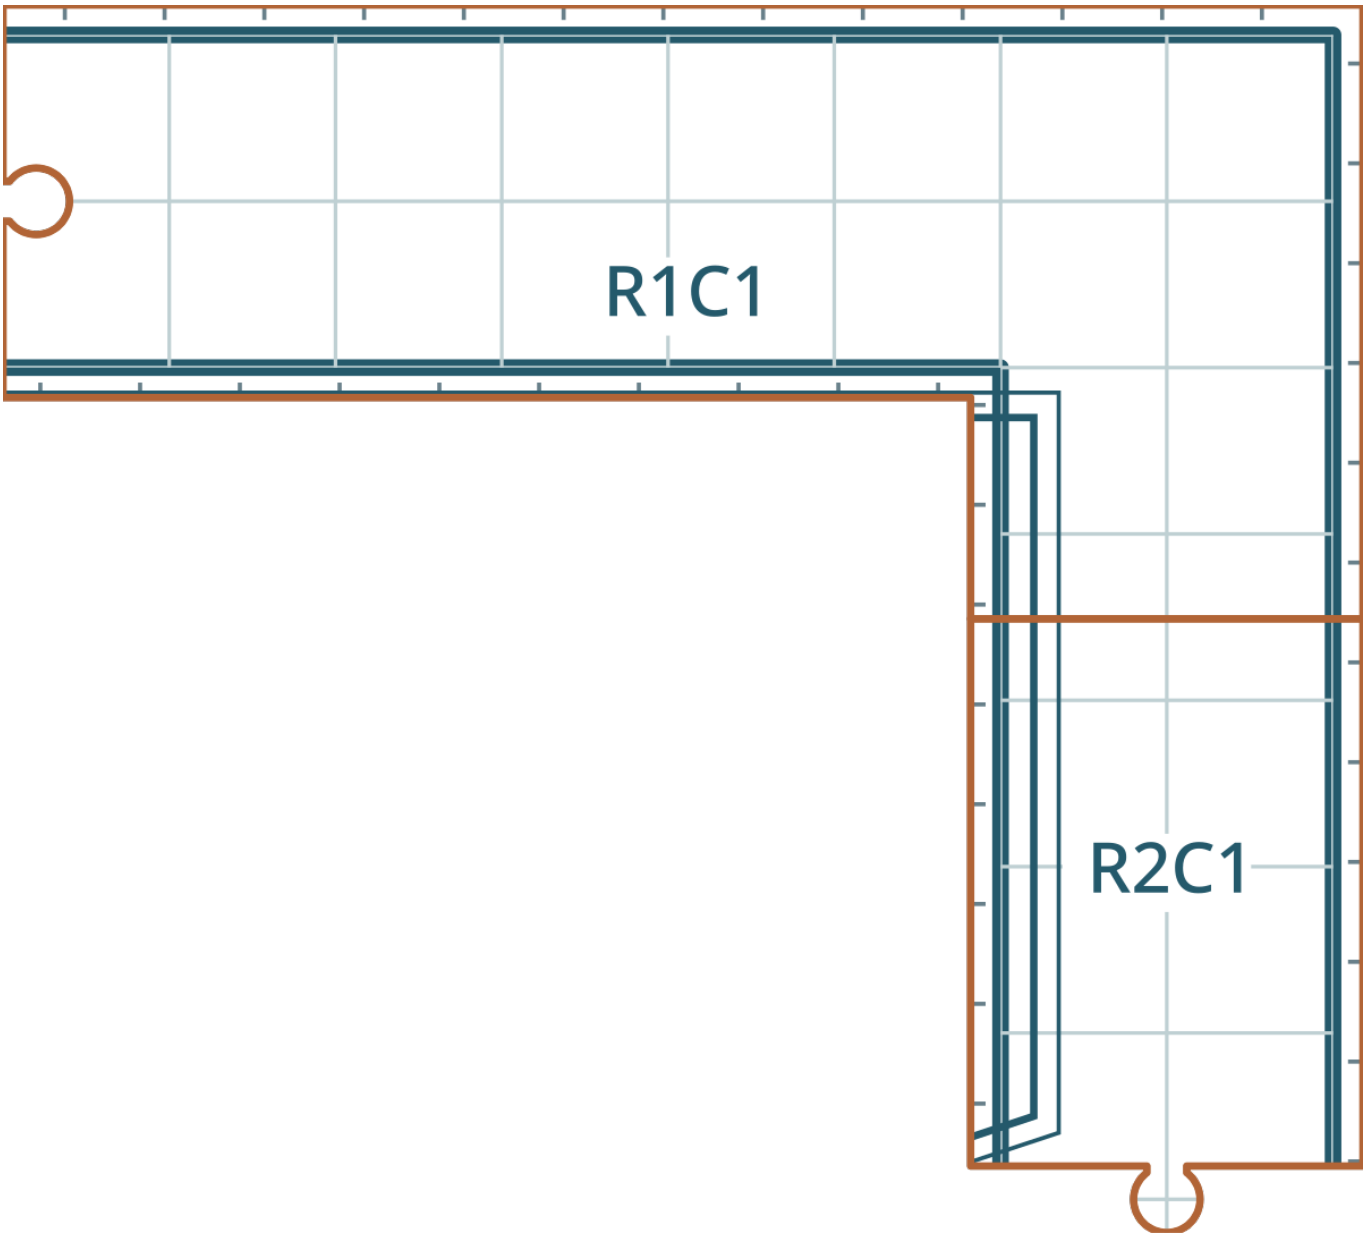

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

East-Passage-B

Backing SVG: 8.180 x 7.380 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 3.690 x 8.180 in; turn clockwise after cutting

R2C1: 2.360 x 3.690 in

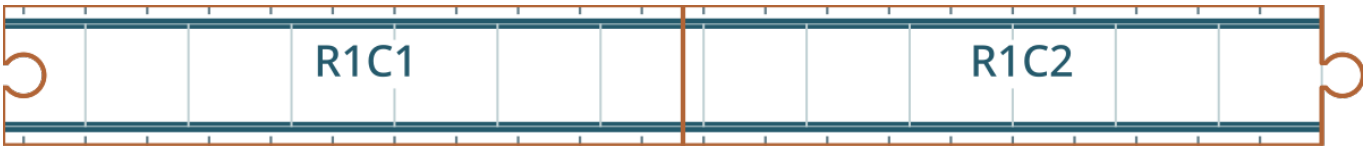

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Low-Tunnel-A

Backing SVG: 1.360 x 13.200 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 1.360 x 6.600 in; turn clockwise after cutting

R1C2: 1.360 x 6.600 in; turn clockwise after cutting

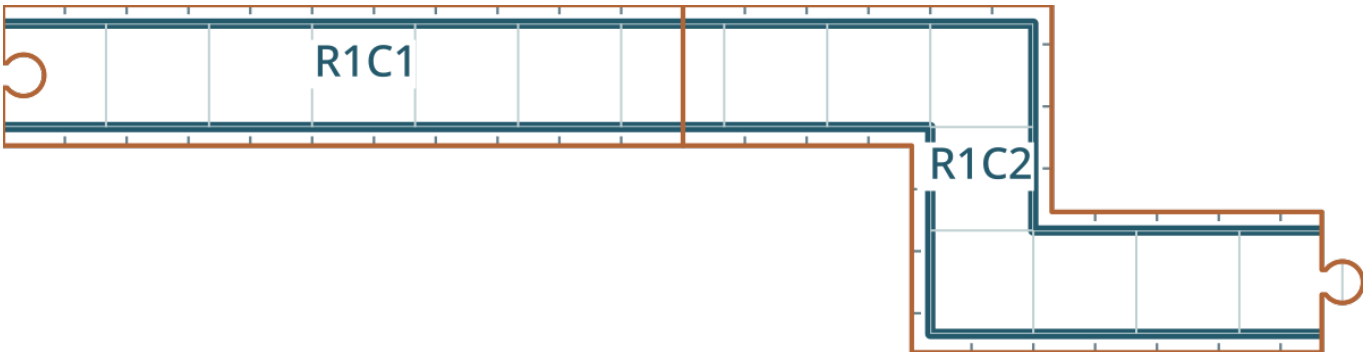

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Low-Tunnel-B

Backing SVG: 3.360 x 13.200 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 1.360 x 6.600 in; turn clockwise after cutting

R1C2: 3.360 x 6.600 in; turn clockwise after cutting

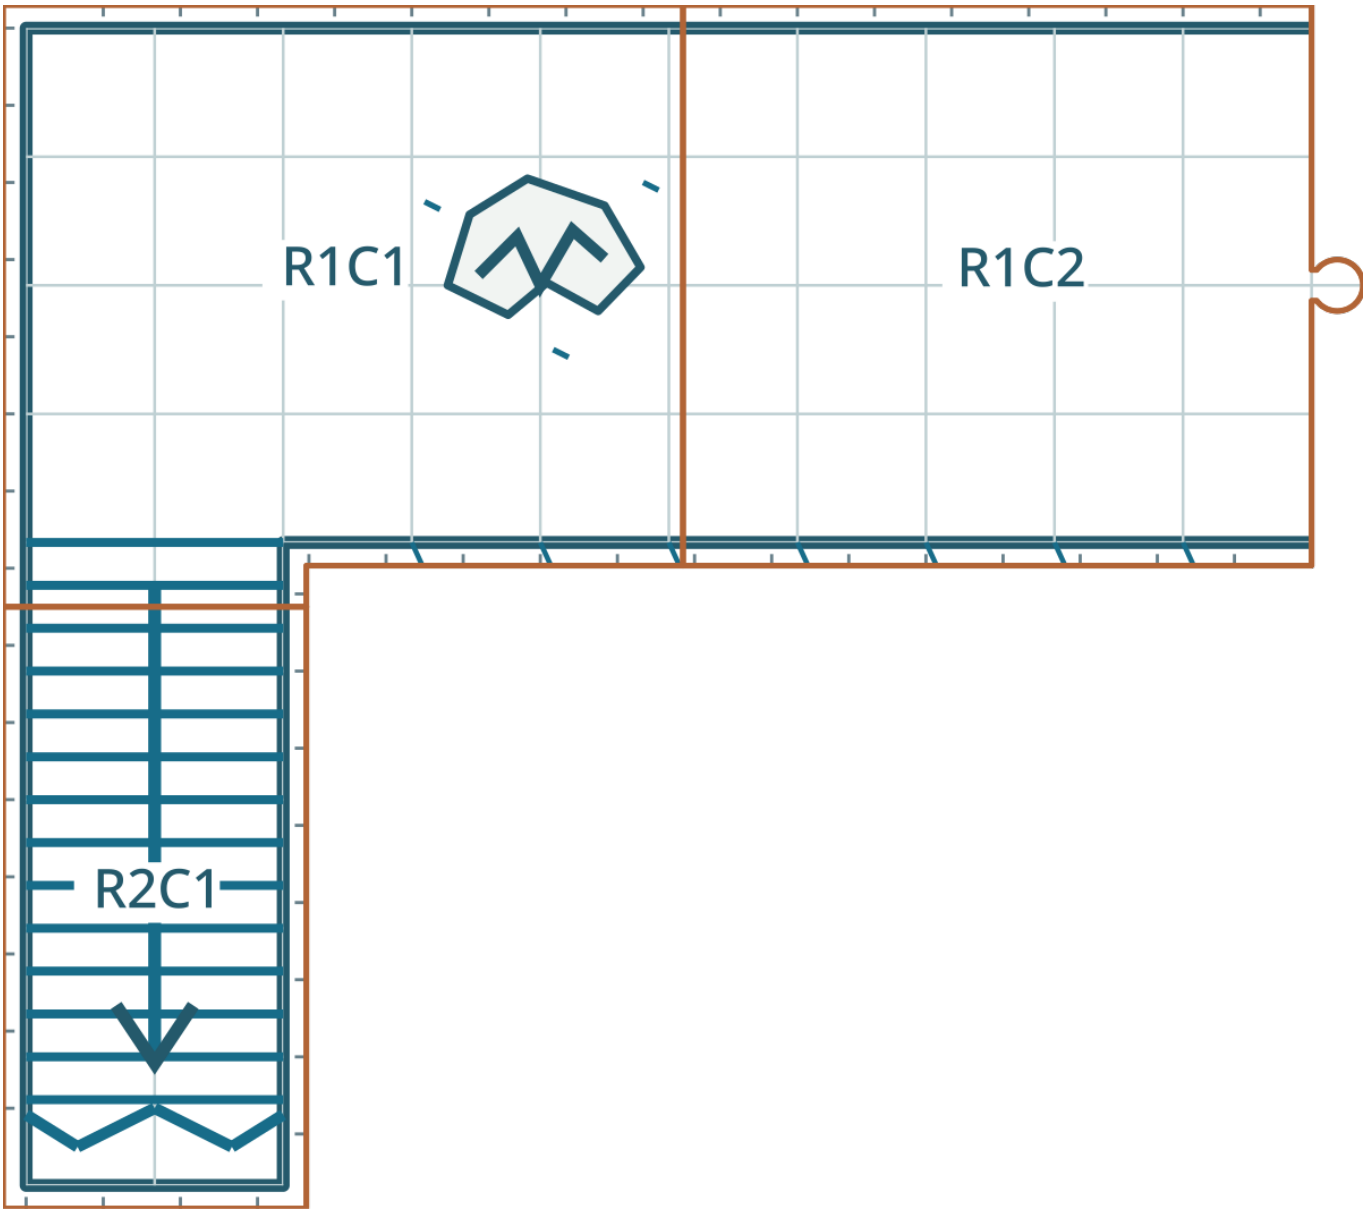

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Gallery-West

Backing SVG: 10.580 x 9.360 in; 3 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.290 x 4.680 in

R1C2: 5.290 x 4.360 in

R2C1: 2.360 x 4.680 in

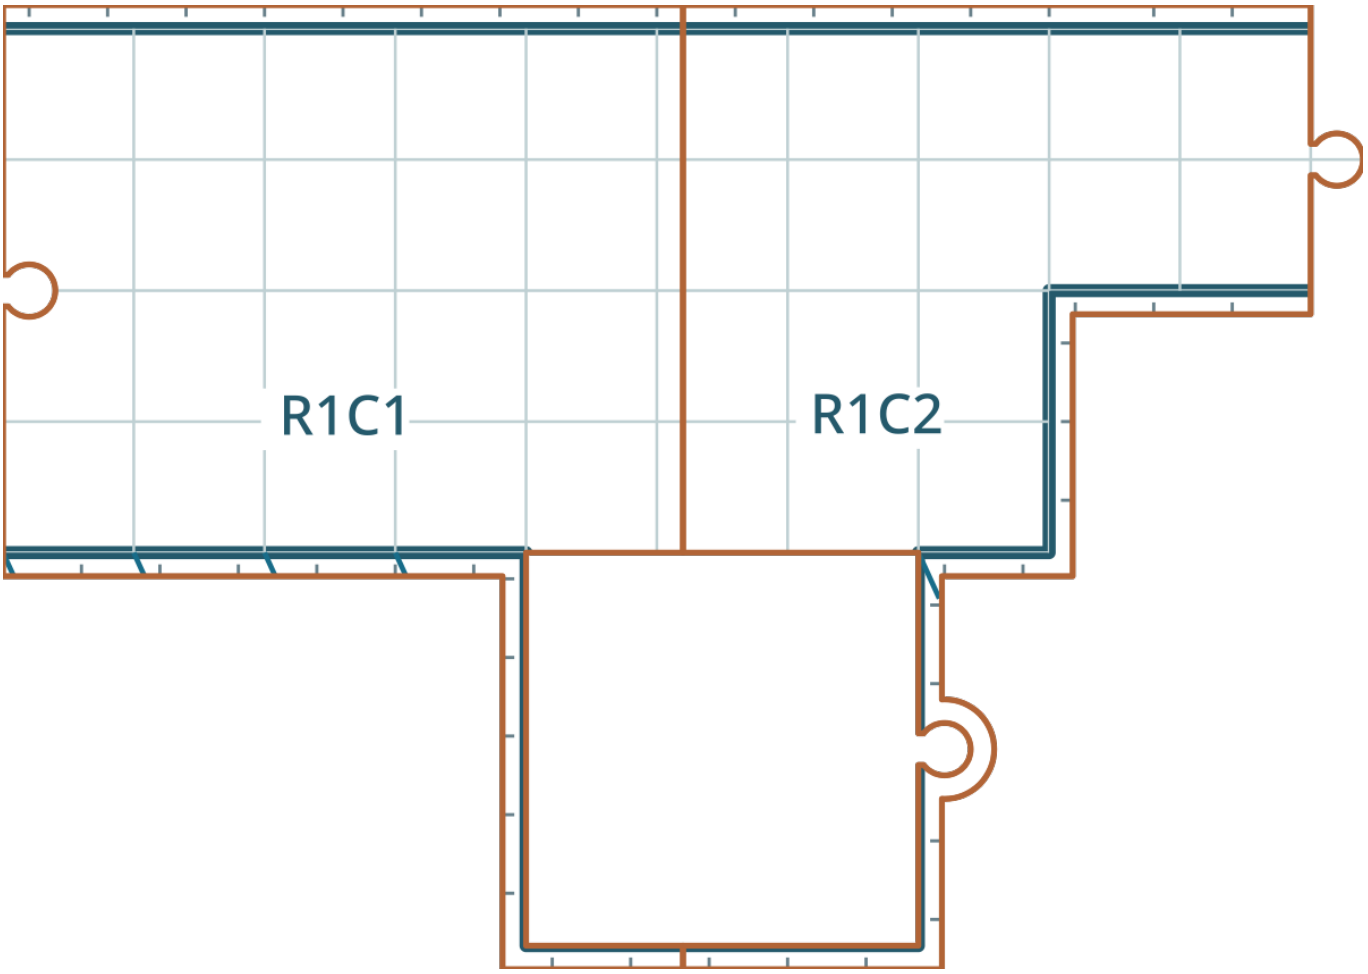

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Gallery-Middle

Backing SVG: 10.400 x 7.360 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.200 x 7.360 in

R1C2: 5.200 x 7.360 in

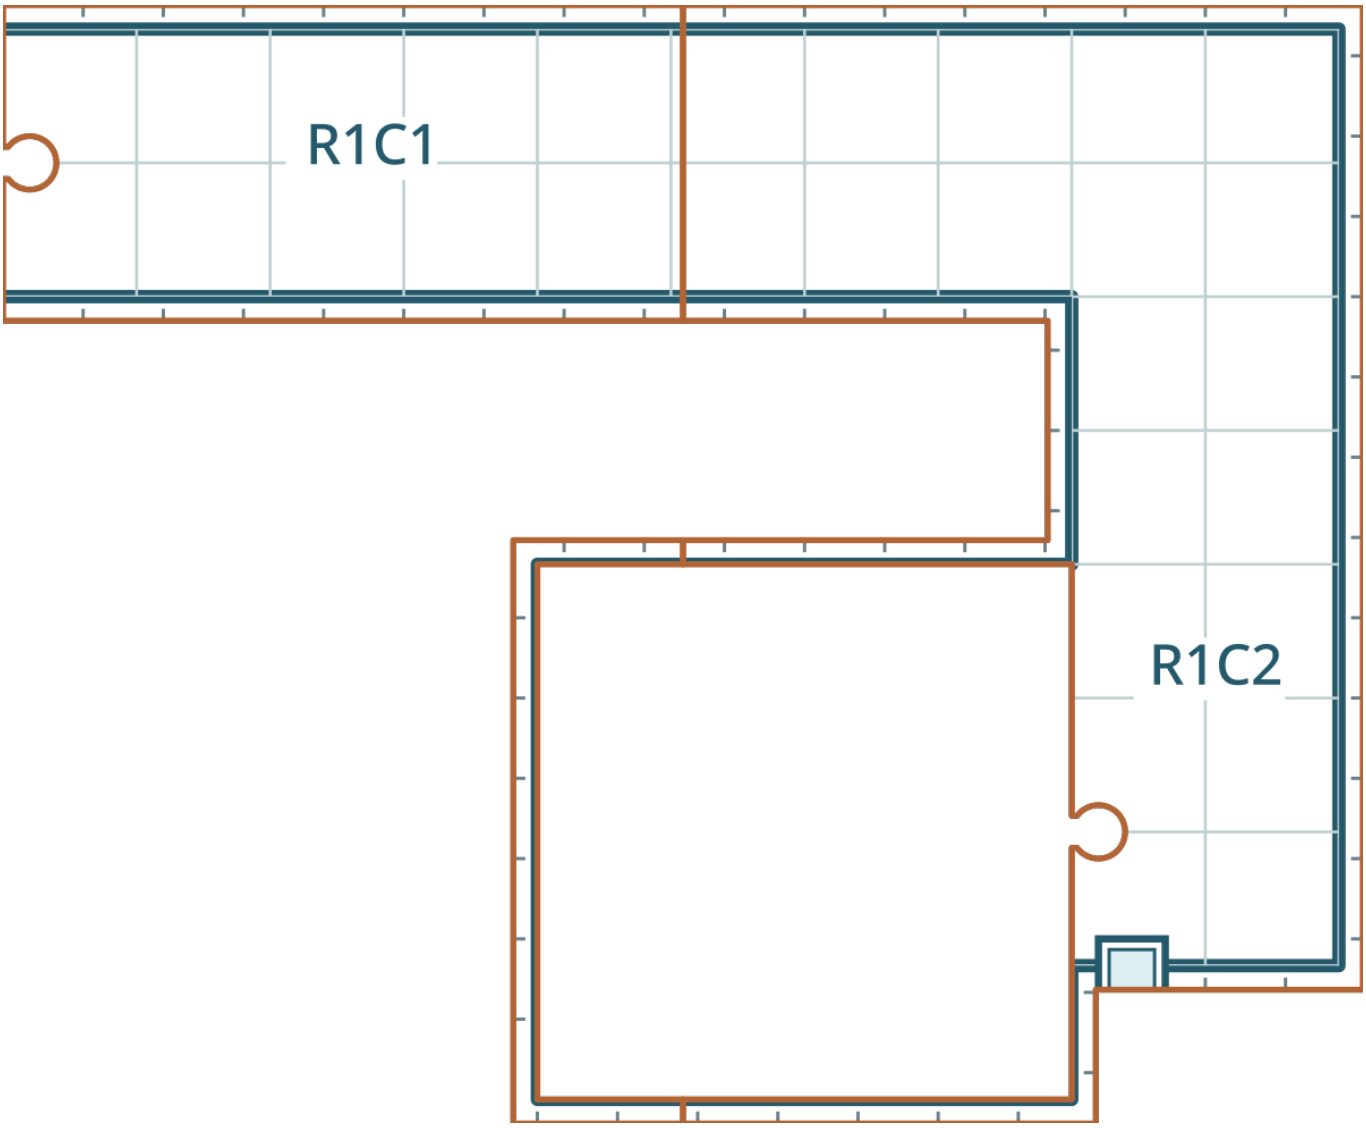

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Gallery-East

Backing SVG: 10.180 x 8.360 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.090 x 8.360 in

R1C2: 5.090 x 8.360 in

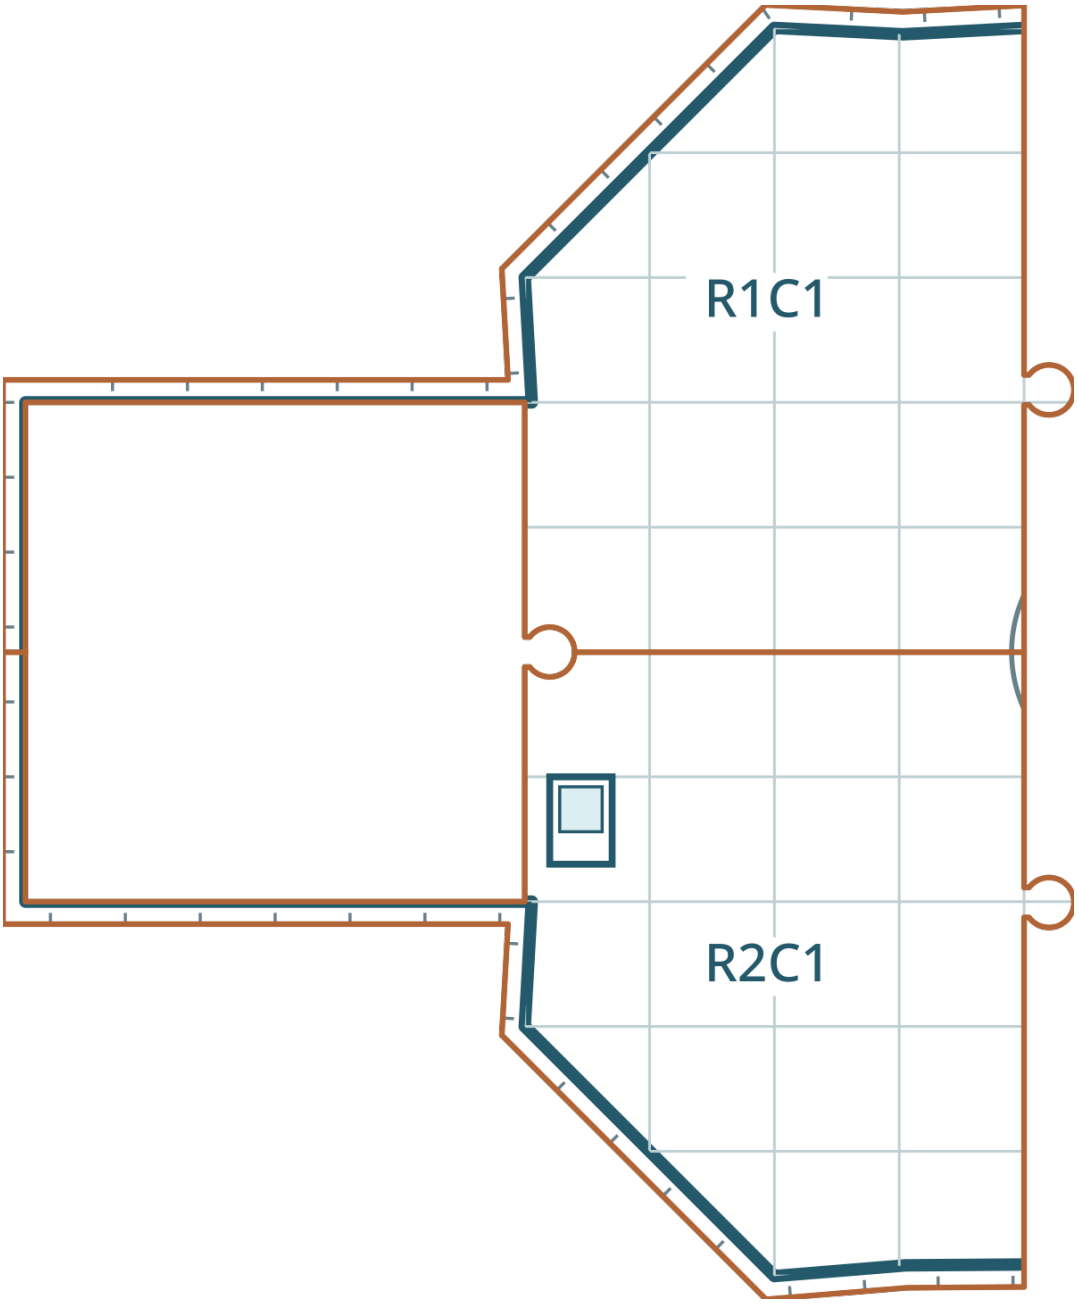

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Grotto-West

Backing SVG: 8.580 x 10.370 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.185 x 8.580 in; turn clockwise after cutting

R2C1: 5.185 x 8.580 in; turn clockwise after cutting

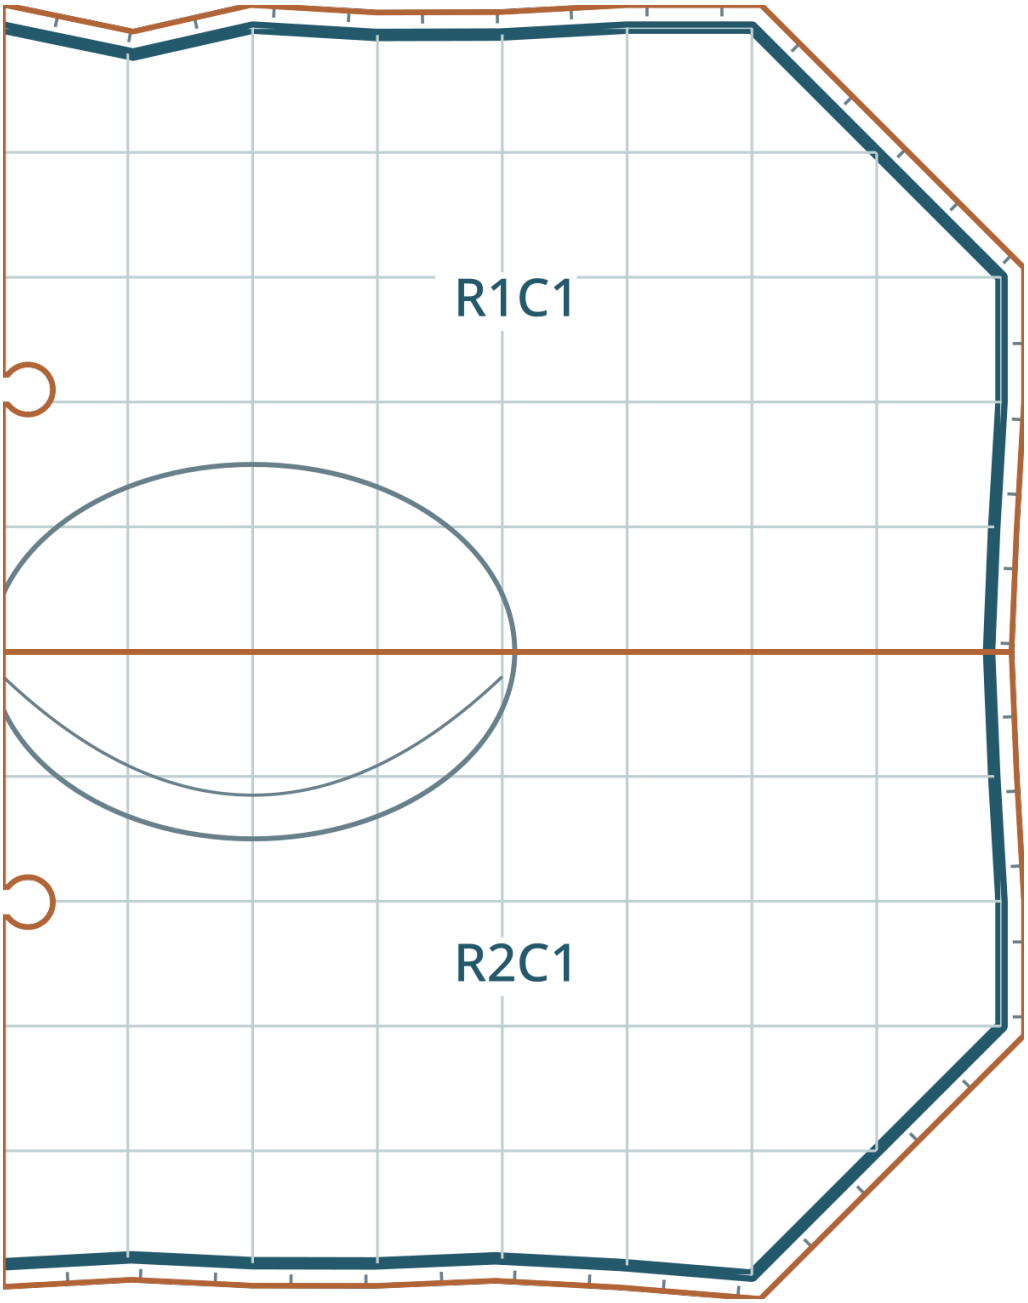

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Grotto-East

Backing SVG: 8.180 x 10.367 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 5.184 x 8.180 in; turn clockwise after cutting

R2C1: 5.184 x 8.180 in; turn clockwise after cutting

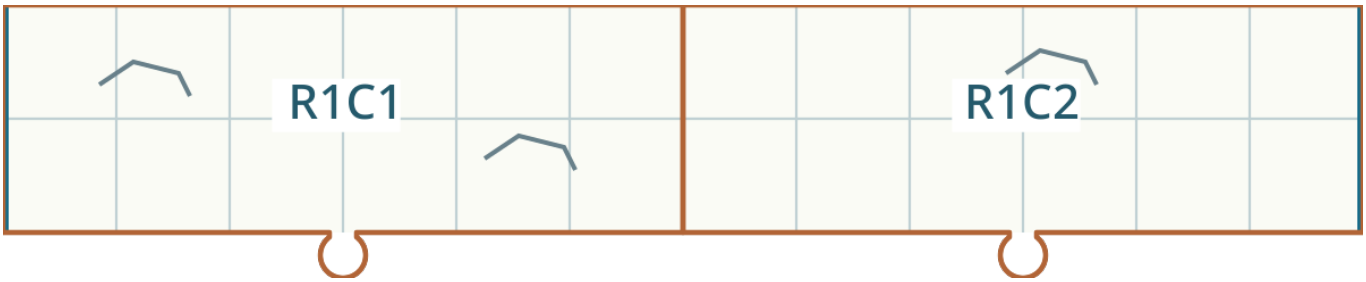

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q1-Bright-Side

Backing SVG: 2.400 x 12.000 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 6.000 x 2.400 in

R1C2: 6.000 x 2.400 in

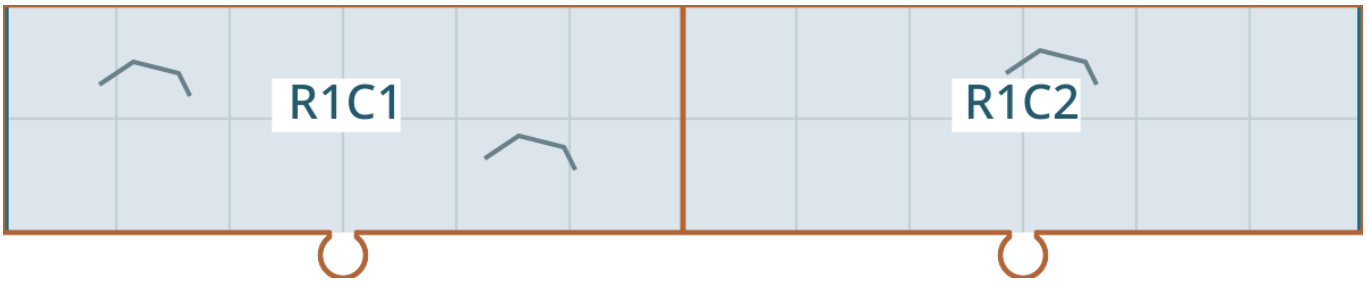

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q1-Dark-Side

Backing SVG: 2.400 x 12.000 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 6.000 x 2.400 in

R1C2: 6.000 x 2.400 in

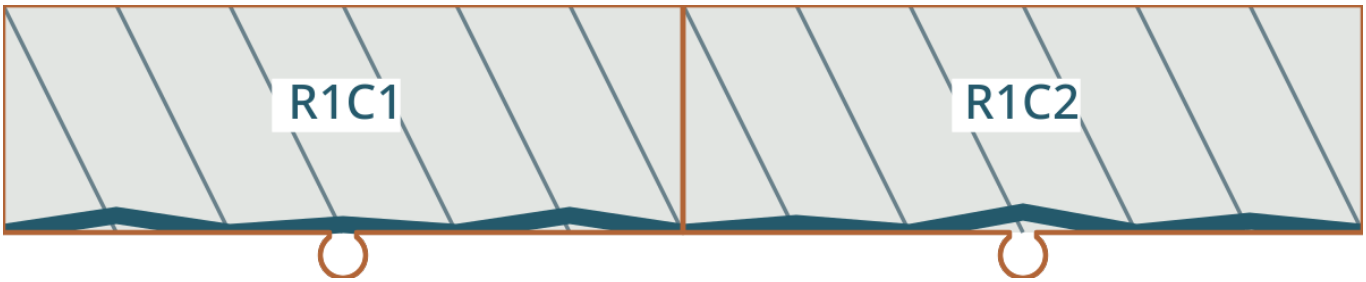

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q1-Underground

Backing SVG: 2.400 x 12.000 in; 2 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 6.000 x 2.400 in

R1C2: 6.000 x 2.400 in

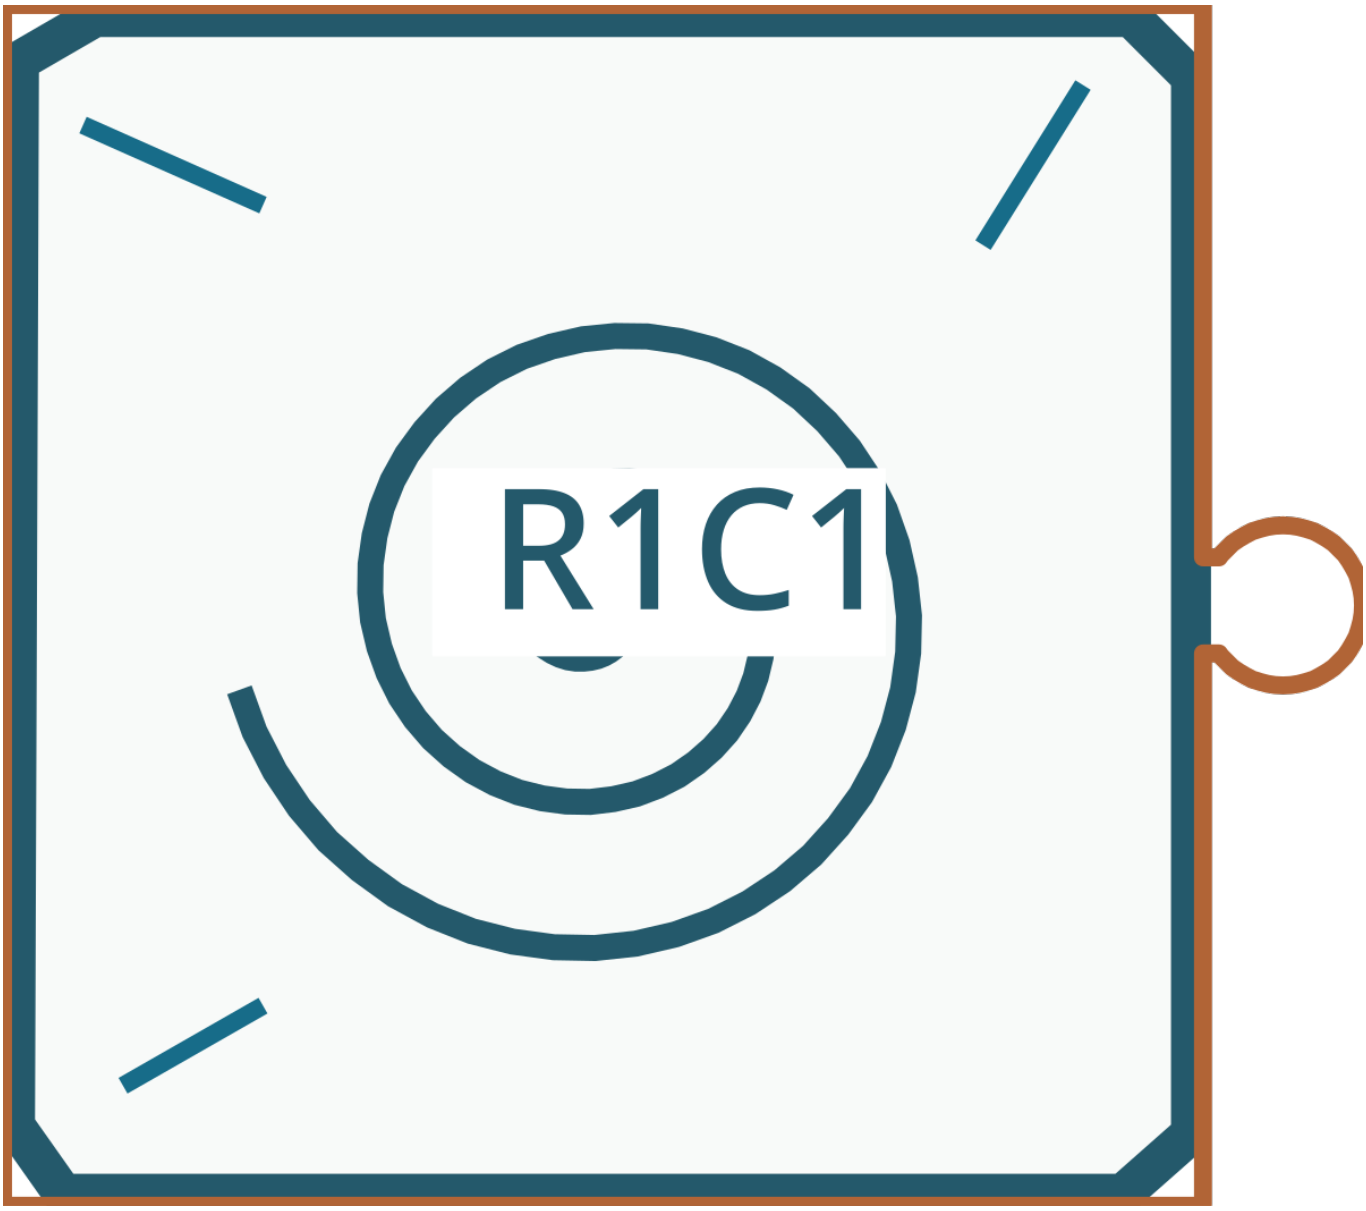

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q2-Slab

Backing SVG: 3.400 x 3.000 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 3.400 x 3.000 in

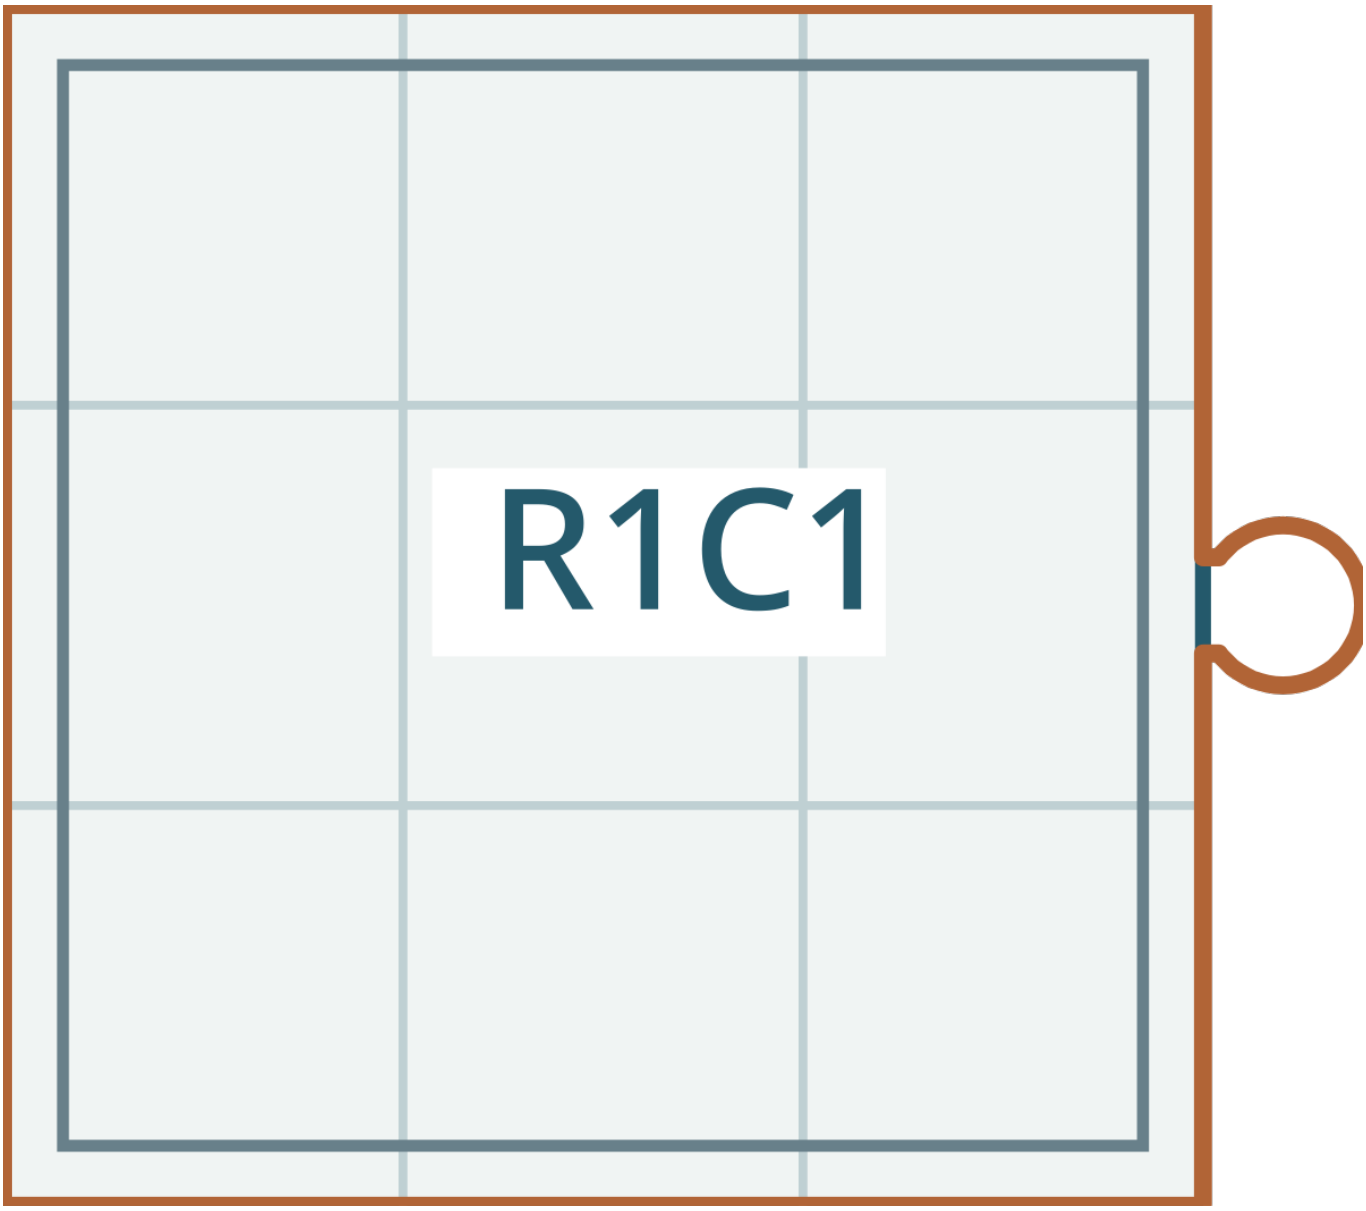

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q2-Lower-Empty

Backing SVG: 3.400 x 3.000 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 3.400 x 3.000 in

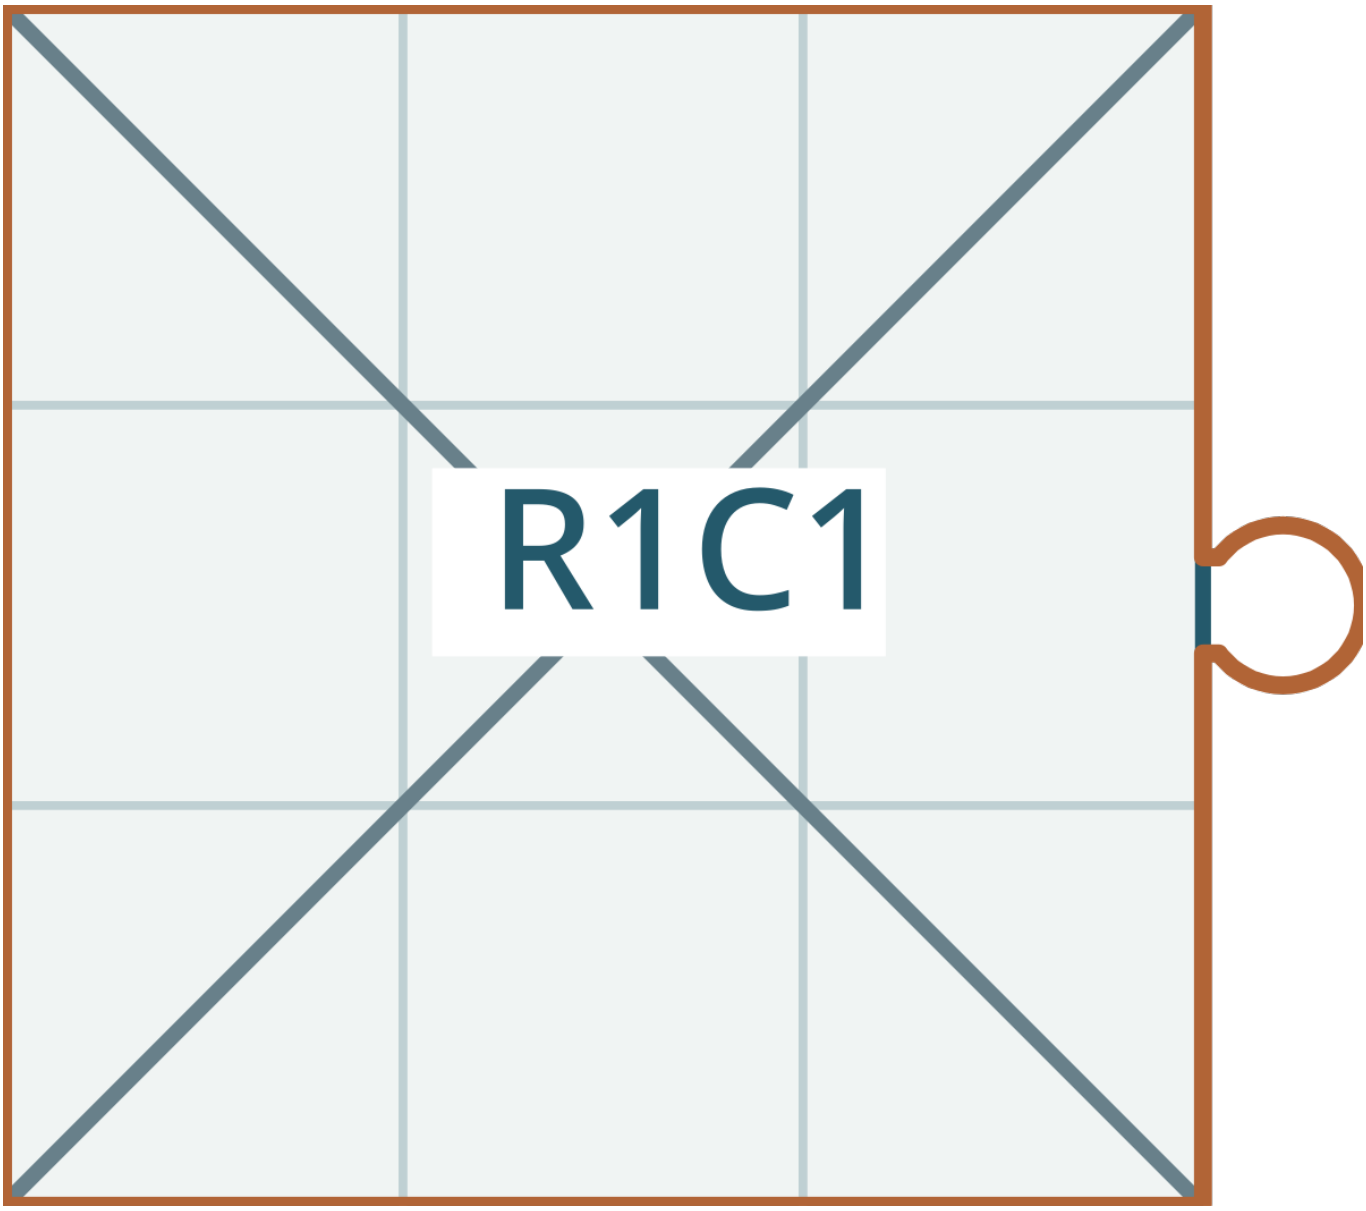

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q2-Upper-Empty

Backing SVG: 3.400 x 3.000 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 3.400 x 3.000 in

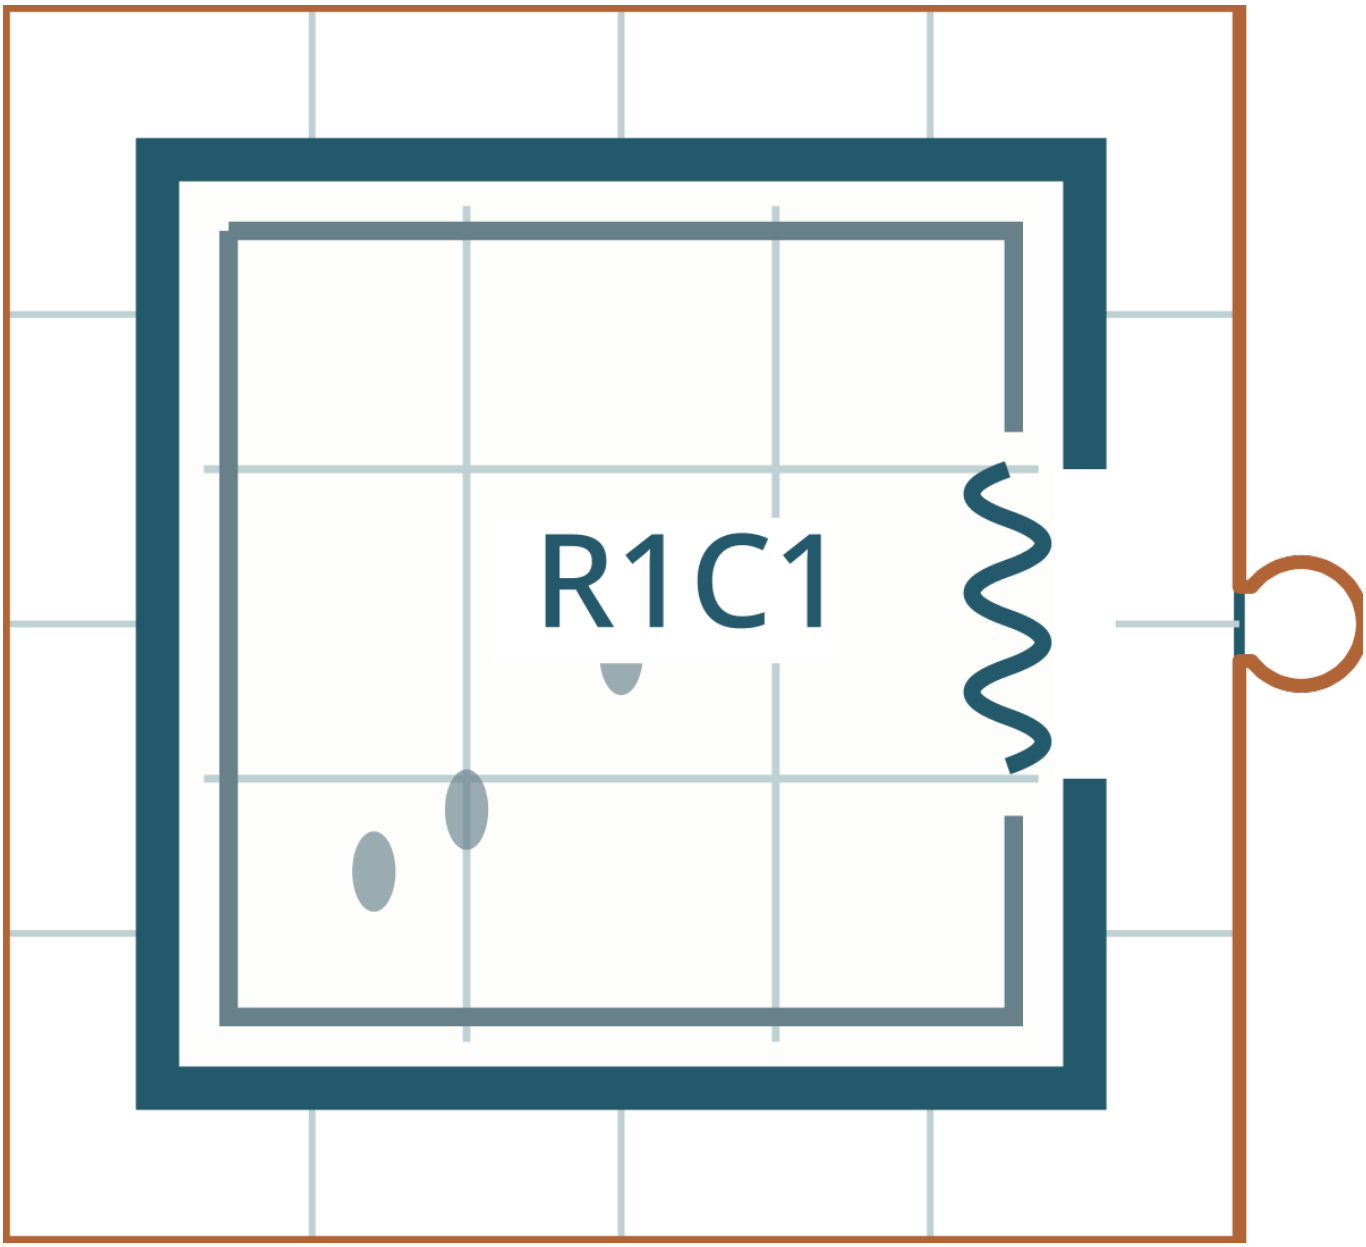

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q3-Room

Backing SVG: 4.400 x 4.000 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 4.400 x 4.000 in

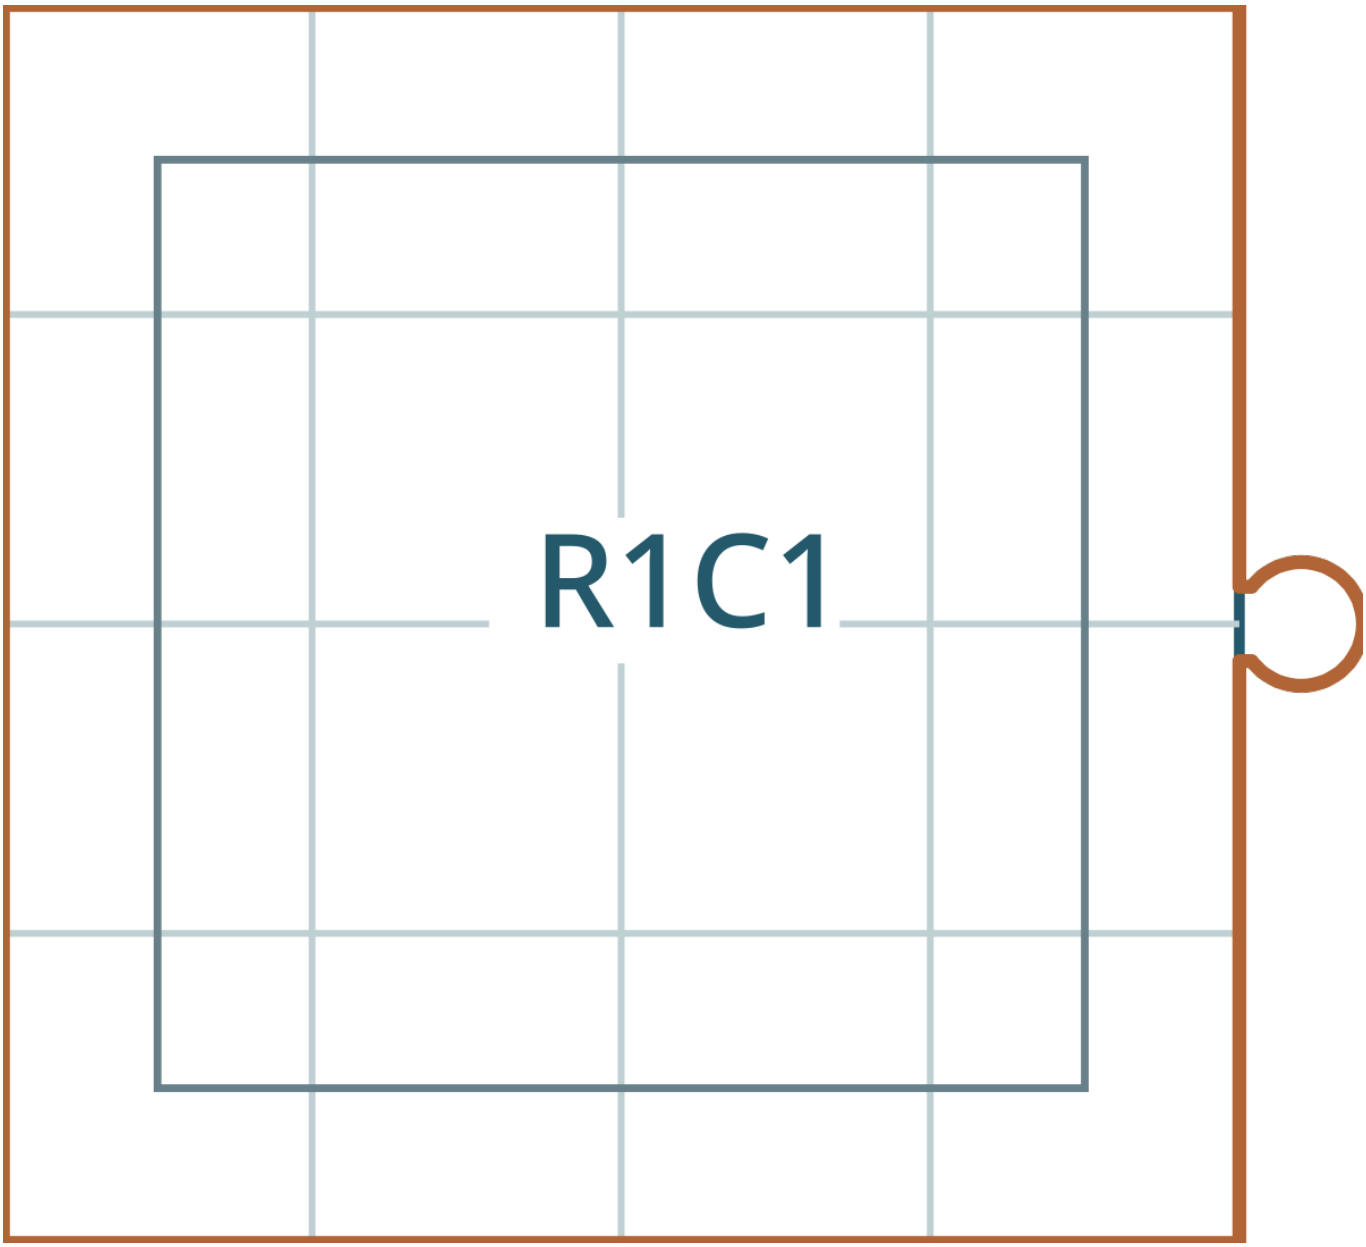

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Q3-Empty

Backing SVG: 4.400 x 4.000 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 4.400 x 4.000 in

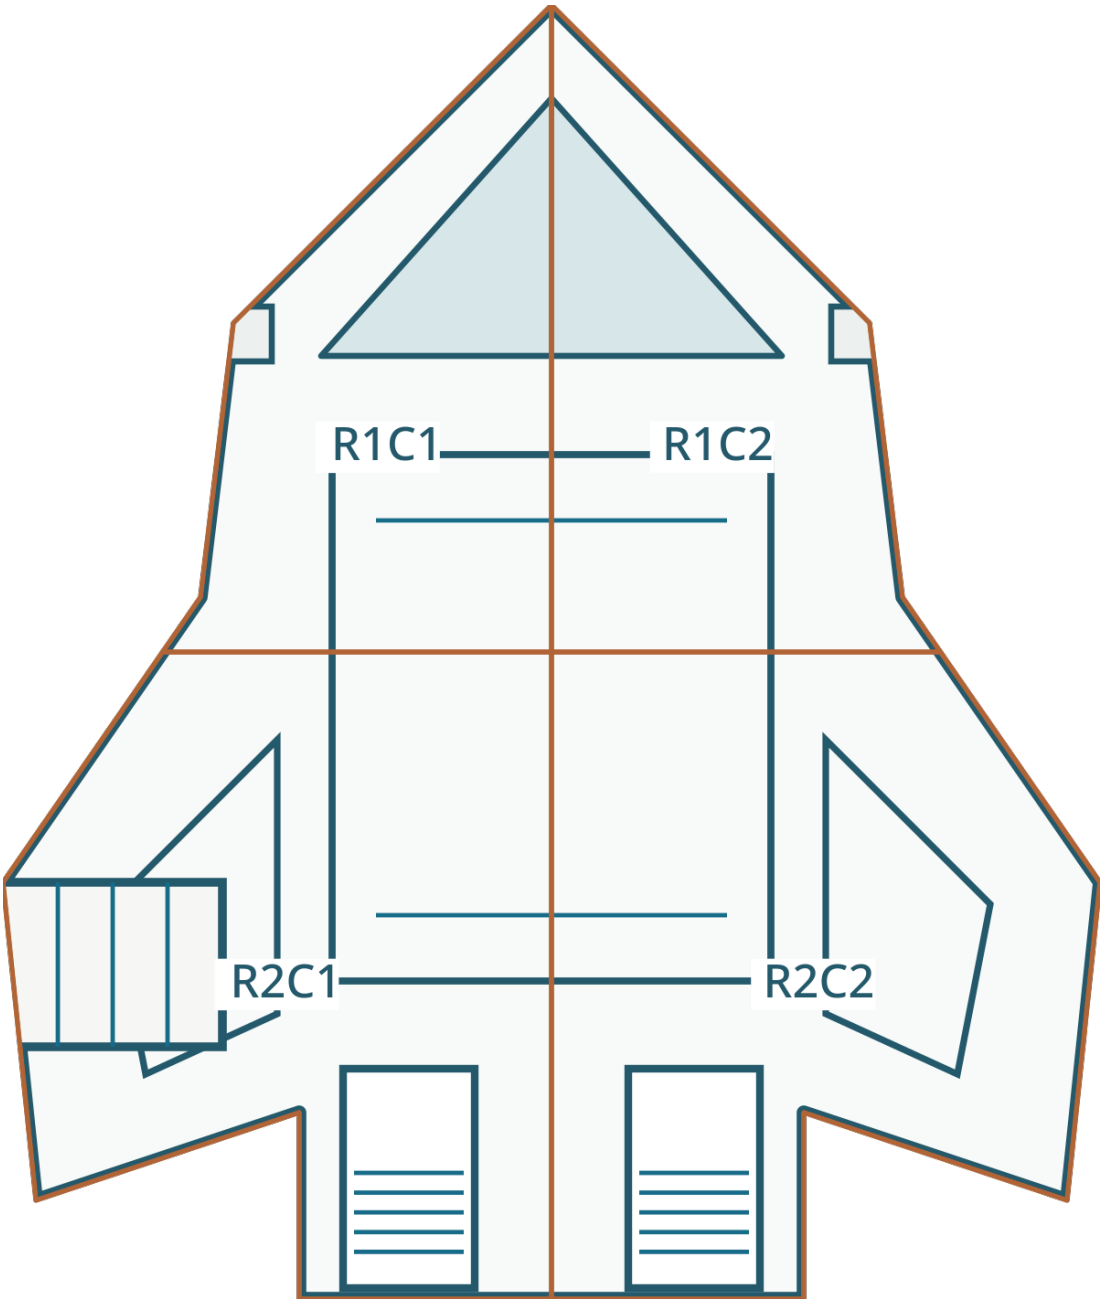

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Ship-Hull

Backing SVG: 10.000 x 11.800 in; 4 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 3.546 x 5.900 in

R1C2: 3.546 x 5.900 in

R2C1: 5.000 x 5.900 in

R2C2: 5.000 x 5.900 in

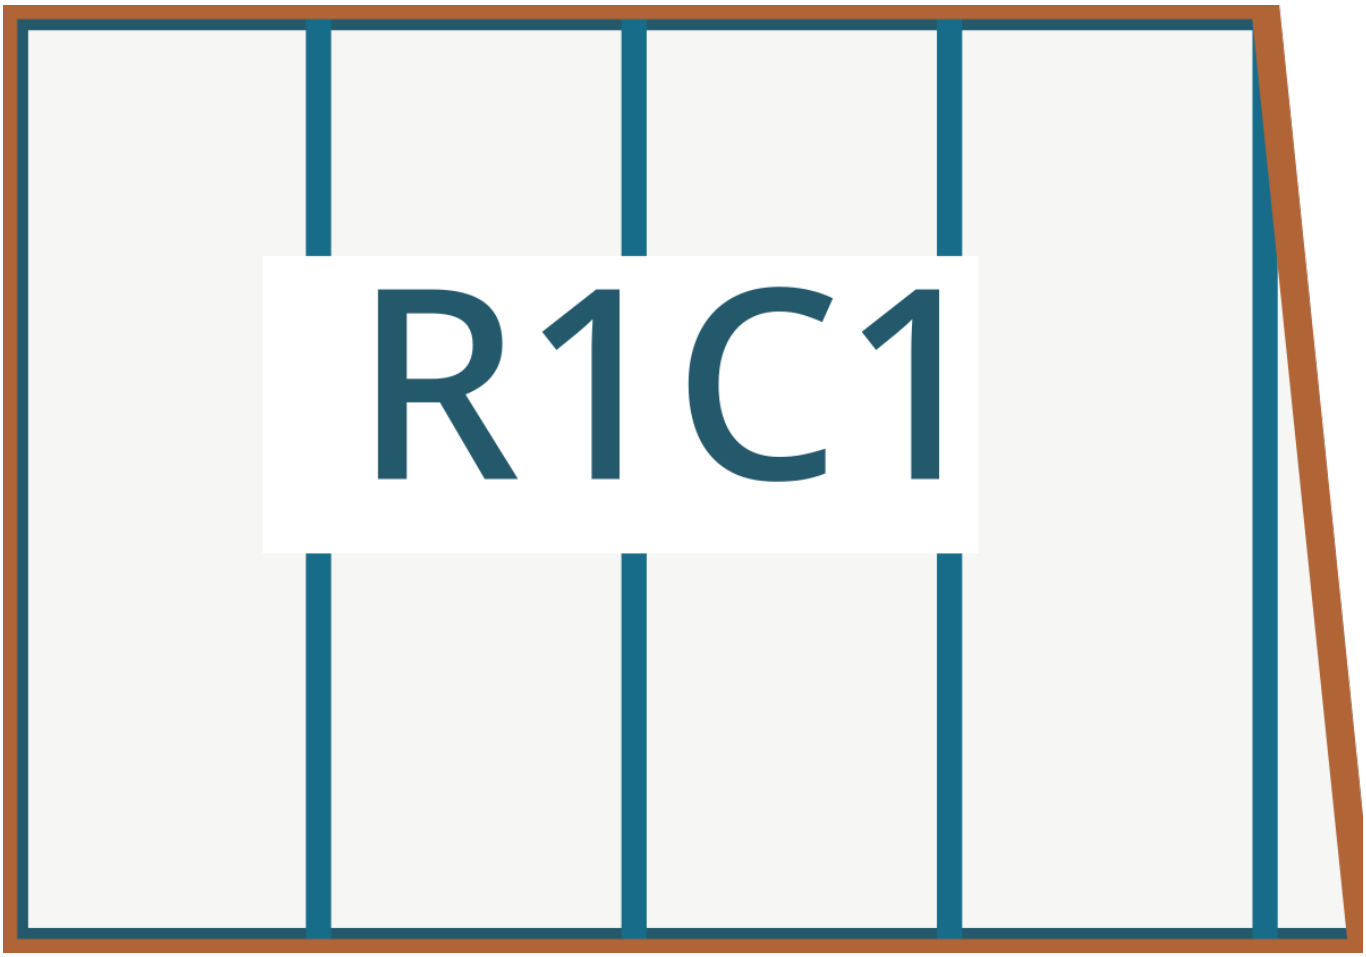

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Ship-Ramp

Backing SVG: 2.155 x 1.500 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 2.155 x 1.500 in

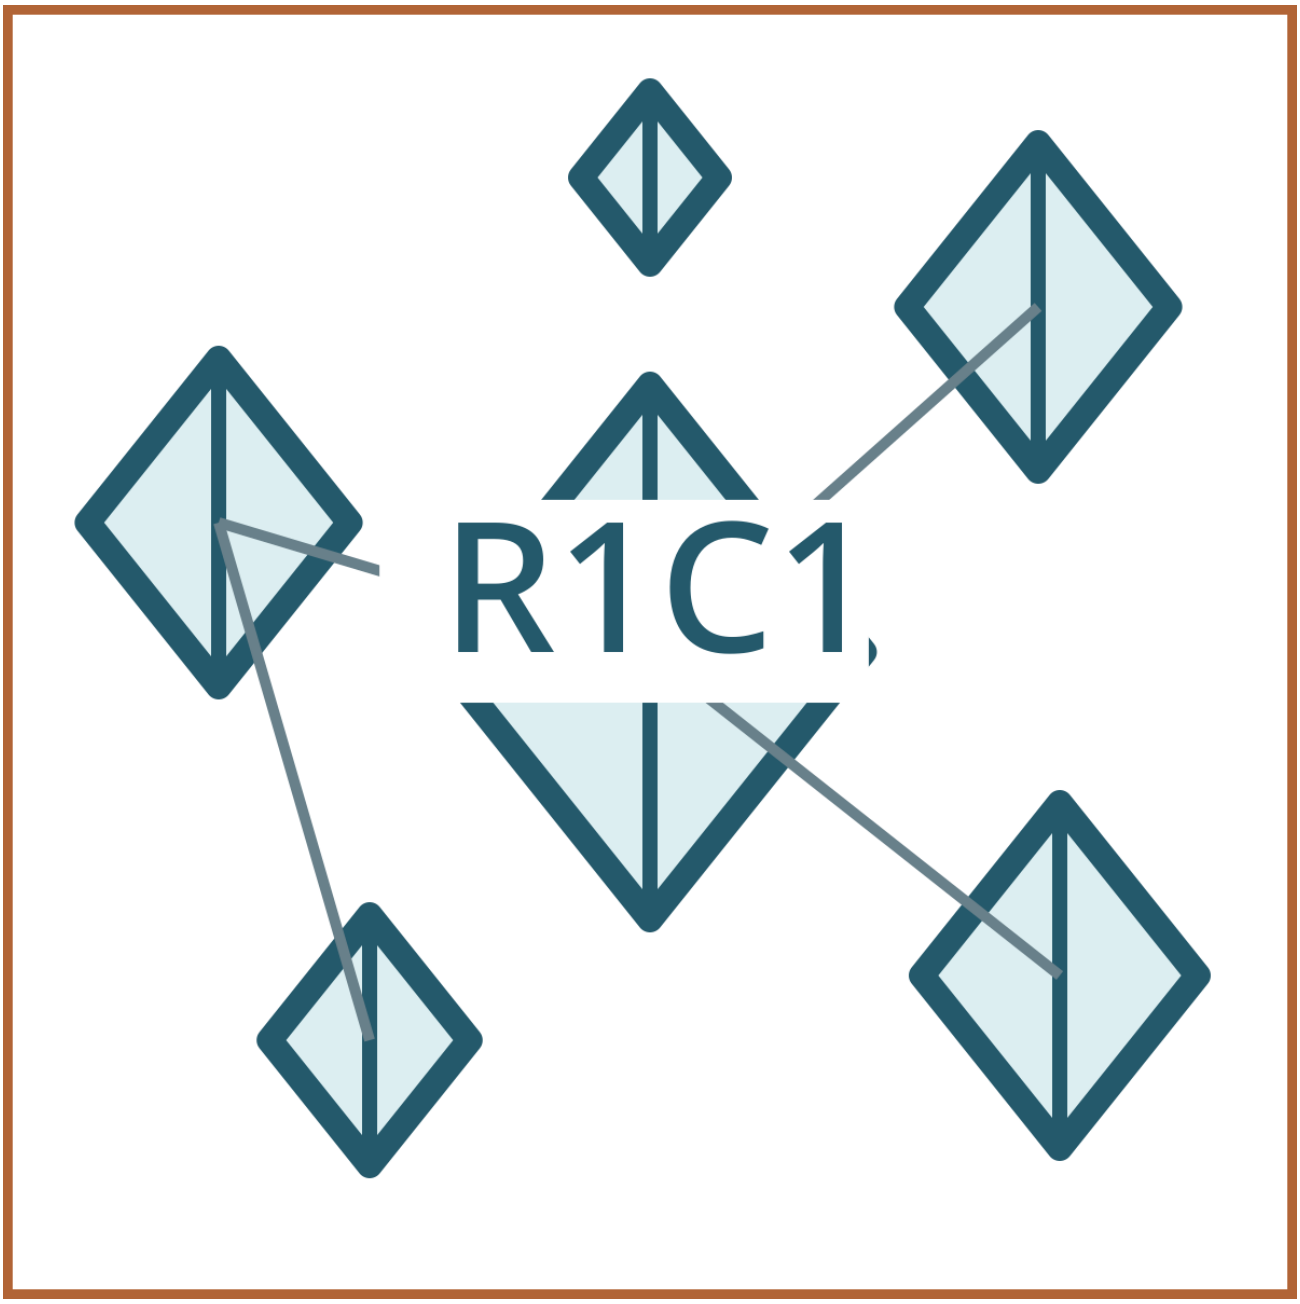

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Anomaly

Backing SVG: 3.000 x 3.000 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 3.000 x 3.000 in

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.

Maintenance-Case

Backing SVG: 1.100 x 0.850 in; 1 cardstock panel(s).

Diagram shows map orientation. R = row, C = column; north/top is the top of this diagram.

R1C1: 1.100 x 0.850 in

Glue panels flush along the marked seams. Match grid lines; keep adhesive clear of tab edges.

The finished backing is one tabletop piece. Printed seams remain permanently assembled.
