UPRIGHT PAWNS

Eight electrovores + three stones • one-inch bases

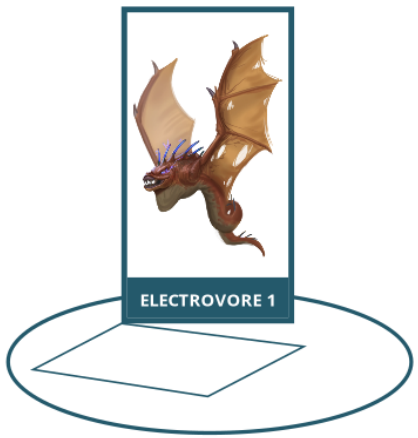

1

1

Optional board core

1. Cut and score

Dashed lines: four folds.

Fold both faces around the top spine.

2. Glue the faces

Core: 0.85 × 1.55 in for creatures.

Keep the two bottom feet free.

3. Attach the base

Fold the feet in opposite directions.

Glue feet along the base centerline.

The artwork and number appear on both sides. The board base adds weight for handling.

Top spine: 0.08 in / about 2 mm. Designed around your 1.5 mm board plus paper and glue.

Make one pawn first to check the fit. Use thinner card for the upright core if the faces bow outward.
