Integrated Medkit Tuppie's internal compartments contain diagnostic sensors, sterile dressings, sealants, injectors, and other medical tools that function as a medkit. Tuppie can use Medicine actions requiring a medkit without carrying a separate one.

Little Helper ♦ Tuppie positions tools, illuminates Tarn's work area, holds components in place, and feeds her diagnostic information. Tarn gains a +2 circumstance bonus to the next **Crafting** or **Computers** check she attempts before the end of her turn. Tuppie must be adjacent to Tarn or the object Tarn is working on.

Medical Routine Tuppie can perform **Treat Wounds** using its own Medicine modifier. Tuppie's treatment is technological and non-magical. It otherwise follows all the normal rules for Treat Wounds.

Bedside Protocol When Tuppie succeeds at Treat Wounds, increase the Hit Points restored by **2**. On a critical success, increase the Hit Points restored by **4** instead.

Unreliable Tech Once Tuppie is reduced to less than half its Hit Points, or immediately upon being damaged by a critical hit, it becomes permanently **glitching** 1 until its Hit Points are fully restored, such as by being Repaired.

Noncombat Programming Tuppie has no Strikes and can't wield weapons. It won't deliberately harm another creature even if commanded to do so.

Speed 5 feet (hover), fly 25 feet

Treat Wounds (exploration, healing, manipulate) Tuppie spends 10 minutes treating one injured living creature. It attempts a Medicine check using the normal Treat Wounds rules.
