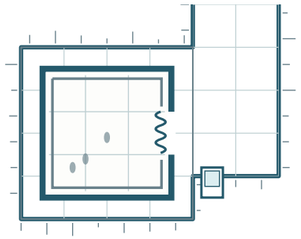
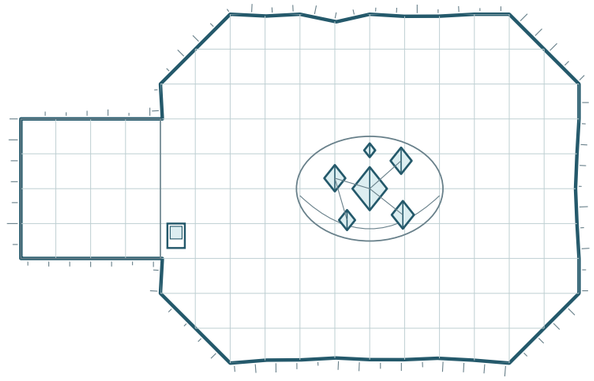
Q3 / TRAVELING ROOM

The room occupies one berth at a time. Its doorway faces east at both destinations.

ROOM AT GALLERY



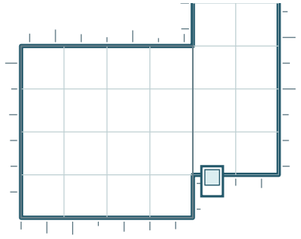
Connected to fixed area 5



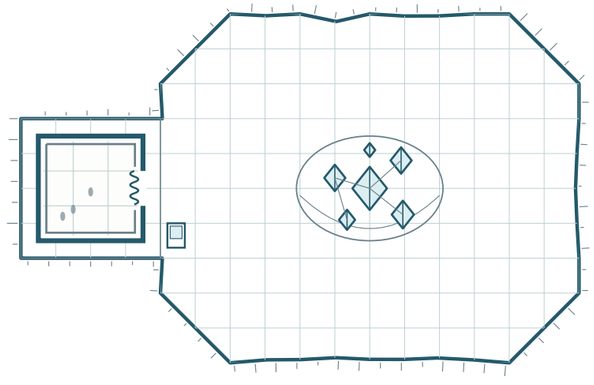
Gallery berth: occupied

Deep berth: empty

ROOM AT DEEP



Connected to fixed area 5



Gallery berth: empty

Deep berth: occupied

The 4 x 4 berth tiles share one cut shape. Swap occupied and empty inserts between them.

The stone room itself remains 3 x 3 squares; the tile includes the fixed clearance around it.

The viewing slate at each berth can establish observation of Q3 so an empty room can be called back.

After the vision: return everyone and Q3 to Gallery. Remove the anomaly; Deep now reaches the replacement grotto.
